INDEX TO VOLUME 141

Subject Index*

A

Abdomen
Umbilical venous line displacement as a consequence of abdominal girth variation (Salvadori et al). 2002;141:737 (Insights)

Academic medical centers
Perinatal outreach education—the role of academic medical centers (Hein). 2002;141:151-2
Promoting clerkship directors: the importance of evidence (Marcdante and Kliegman). 2002;141:1-2

Achondroplasia
Polyhydramnios: a predictor of severe growth impairment in achondroplasia (Latini et al). 2002;141:274-6 (CLO)

Addiction; *see* Substance dependence

Adipose tissue
Hemostatic and inflammatory markers in obese youths: effects of exercise and adiposity (Barbeau et al). 2002;141:415-20

Administration, inhalation
Efficacy of albuterol inhalation in treatment of hyperkalemia in premature neonates (Singh et al). 2002;141:16-20
Inhaled prostacyclin for term infants with persistent pulmonary hypertension refractory to inhaled nitric oxide (Kelly et al). 2002;141:830-2 (CLO)

Adolescence
Cardiovascular mortality in children and young adults with end-stage kidney disease (Parekh et al). 2002;141:191-7
Hemostatic and inflammatory markers in obese youths: effects of exercise and adiposity (Barbeau et al). 2002;141:415-20
Hypocholesterolemia in children and adolescents with β-thalassemia intermedia (Hartman et al). 2002;141:543-7
Idiopathic thrombocytopenic purpura diagnosed during the second decade of life (Lowe and Buchanan). 2002;141:253-8
Increased adrenocortical and adrenomedullary hormonal activity in 12-year-old children born small for gestational age (Tenhola et al). 2002;141:477-82
The interval between menarche and age of first sexual intercourse as a risk factor for subsequent HPV infection in adolescent and young adult women (Kahn et al). 2002;141:718-23 (CLO)
Macronutrient intake in anorexia nervosa: the National Heart, Lung, and Blood Institute Growth and Health Study (Affenito et al). 2002;141:701-5
Pediatric end-stage renal disease: heart as a target (Mitsnefes). 2002;141:162-4 (Editorial)
Persistent hyperlipasemia caused by macrolipase in an adolescent (Keating and Lowe). 2002;141:129-31 (CLO)
Physiologic regulators of bone turnover in young women with anorexia nervosa (Gordon et al). 2002;141:64-70
A prospective study of bone mass and body composition in female adolescent gymnasts (Laing et al). 2002;141:211-6
QTc interval prolongation and QTc dispersion in children and adolescents with type 1 diabetes (Suys et al). 2002;141:59-63
Recurrent necrobiosis lipoidica diabeticorum associated with venous insufficiency in an adolescent with poorly controlled type 2 diabetes mellitus (Yigit and Estrada). 2002;141:280-2 (CLO)

*July, pp. 1-150; August, pp. 151-298; September, pp. 299-452; October, pp. 453-598; November, pp. 599-746; December, pp. 747-874.

Adrenal cortex hormones
Increased adrenocortical and adrenomedullary hormonal activity in 12-year-old children born small for gestational age (Tenhola et al). 2002;141:477-82

Adrenal gland
Premature pubarche in girls is associated with functional adrenal but not ovarian hyperandrogenism (Mathew et al). 2002;141:91-8

Adrenal hyperplasia, congenital
The diagnosis of the adrenogenital syndrome and its treatment with cortisone (Schwartz). 2002;141:817 (50 years ago)
Indicators of adult height outcome in classical 21-hydroxylase deficiency congenital adrenal hyperplasia (Muirhead et al). 2002;141:247-52

Adrenal medulla
Increased adrenocortical and adrenomedullary hormonal activity in 12-year-old children born small for gestational age (Tenhola et al). 2002;141:477-82

Aerosols
A nontoxic detergent for aerosol use in dissolving viscid bronchopulmonary secretions (Wilmott). 2002;141:30 (50 years ago)

African Americans
Parental history and early-onset type 2 diabetes in African Americans and Latinos in Chicago (Onyemere and Lipton). 2002;141:825-9

Agammaglobulinemia
Clinical findings leading to the diagnosis of X-linked agammaglobulinemia (Conley and Howard). 2002;141:566-71 (CLO)

Age factors
The aging of the cardiovascular system: when should children be treated like adults? (Gidding). 2002;141:159-61 (Editorial)
Left atrial size in children with hypertension: the influence of obesity, blood pressure, and left ventricular mass (Daniels et al). 2002;141:186-90

AIDS dementia complex
Effect of combination antiretroviral therapy on cerebrospinal fluid HIV RNA, HIV resistance, and clinical manifestations of encephalopathy (McCoig et al). 2002;141:36-44

Air
A new approach to delivering cold, moist air to children with cough or wheezing: open the freezer door (Fisher). 2002;141:596-7 (Letter)

Airway function; *see* Respiration

Albuterol
Efficacy of albuterol inhalation in treatment of hyperkalemia in premature neonates (Singh et al). 2002;141:16-20
A randomized, controlled trial of the effectiveness of nebulized therapy with epinephrine compared with albuterol and saline in infants hospitalized for acute viral bronchiolitis (Patel et al). 2002;141:818-24

Alcohol dehydrogenase
Alcohol dehydrogenase 2 genotypes, maternal alcohol use, and infant outcome (Stoler et al). 2002;141:780-5
Is genotype important in predicting the fetal alcohol syndrome? (Chambers and Jones). 2002;141:751-2 (Editorial)

American Board of Pediatrics
20 years of the American Board of Pediatrics: editorial comment (Stockman). 2002;141:630 (50 years ago)

Amino acids
Allergy to extensively hydrolyzed cow's milk proteins in infants: safety and duration of amino acid–based formula (de Boissieu and Dupont). 2002;141:271-3 (CLO)

Amitriptyline
The diagnostic evaluation of children with cyclic vomiting: a cost-effectiveness assessment (Olson and Li). 2002;141:724-8 (CLO)

Androgens
Premature pubarche in girls is associated with functional adrenal but not ovarian hyperandrogenism (Mathew et al). 2002;141:91-8
Anemia, aplastic
Aplastic anemia in Nijmegen breakage syndrome (Pasic). 2002;141:742 (Letter)
Anemia, neonatal
Anemia of the premature infant: a two year study of the response to iron medication (Ohls). 2002;141:335 (50 years ago)
Early treatment with erythropoietin β ameliorates anemia and reduces transfusion requirements in infants with birth weights below 1000 g (Maier et al). 2002;141:8-15
Anemia, sickle cell
Stroke prevention trial in sickle cell anemia: comments on effects of chronic transfusion on pain (Gates et al) (Letter); (Miller et al) (Reply). 2002;141:742-3
Anesthesia, local
Methemoglobinemia in an infant receiving nitric oxide after the use of eutectic mixture of local anesthetic (Sinisterra et al). 2002;141:285-6 (CLO)
Animals, domestic
Prevalence and correlates of household exposures to tobacco smoke and pets in children with asthma (Wamboldt et al). 2002;141:109-15
Anorexia nervosa
Macronutrient intake in anorexia nervosa: the National Heart, Lung, and Blood Institute Growth and Health Study (Affenito et al). 2002;141:701-5
Physiologic regulators of bone turnover in young women with anorexia nervosa (Gordon et al). 2002;141:64-70
Anoxemia
Relation of sleep state to hypoxemic episodes in ventilated extremely-low-birth-weight infants (Lehtonen et al). 2002;141:363-9
Anoxia
Prediction of outcome after hypoxic-ischemic encephalopathy: a prospective clinical and electrophysiologic study (Mandel et al). 2002;141:45-50
Antibiotic resistance; *see* Drug resistance, microbial
Antibiotics
Antibiotic treatment and renal stone formation in cystic fibrosis (Alon) (Letter); (Böhles) (Reply). 2002;141:598
Antiviral agents
Effect of combination antiretroviral therapy on cerebrospinal fluid HIV RNA, HIV resistance, and clinical manifestations of encephalopathy (McCoig et al). 2002;141:36-44
Apnea
Doxapram and neurodevelopmental outcome (Finer and Barrington) (Letter); (Sreenan et al) (Reply). 2002;141:296-7
Appendicitis
Acute gangrenous appendicitis in a premature infant (Long and Vincour). 2002;141:537 (50 years ago)
Arteriovenous malformations
Choroid plexus arteriovenous malformation presenting with intraventricular hemorrhage (Heck et al). 2002;141:710-1 (CLO)
Artificial organs
Treatment of two patients with Herlitz junctional epidermolysis bullosa with artificial skin bioequivalents (Jiang et al). 2002;141:553-9
Asthma
Effectiveness of screening examinations to detect unrecognized exercise-induced bronchoconstriction (Hallstrand et al). 2002;141:343-9
Increased asthma symptoms and healthcare utilization during the fall and winter seasons in children with asthma living in the inner city: opportunity for school-based intervention (Guilbert and Morgan). 2002;141:604-5 (Editorial)
Low-density areas on high-resolution computed tomograms in chronic pediatric asthma (Pifferi et al). 2002;141:104-8
Prevalence and correlates of household exposures to tobacco smoke and pets in children with asthma (Wamboldt et al). 2002;141:109-15
Screening for exercise-induced asthma (Bokulic). 2002;141:306-8 (Editorial)
Understanding the seasonal pattern of childhood asthma: results from the National Cooperative Inner-City Asthma Study (NCICAS) (Gergen et al). 2002;141:631-6
Astrocytoma
Multifocal desmoplastic astrocytoma, frontal lobe dysplasia, and simian crease (Bock et al). 2002;141:445 (Insights)
Atrophy
Early brain atrophy in persistent hyperinsulinemic hypoglycemia of infancy (Nachum et al). 2002;141:706-9 (CLO)
Attention deficit disorder with hyperactivity
Prevalence of methylphenidate use and change over a two-year period: a nationwide study of 2- to 11-year-old Canadian children (Romano et al). 2002;141:71-5
Attitude
Pediatricians' attitudes toward randomized controlled trials involving children (Caldwell et al). 2002;141:798-803
Randomized trials and recruitment tribulations: rethinking the research enterprise (Wasserman). 2002;141:756-7 (Editorial)
Autopsy
Postmortem screening for fatty acid oxidation disorders by analysis of Guthrie cards with tandem mass spectrometry in sudden unexpected death in infancy (Wilcox et al). 2002;141:833-6 (CLO)

B

Barth syndrome
Cardiolipin deficiency in X-linked cardioskeletal myopathy and neutropenia (Barth syndrome, MIM 302060): a study in cultured skin fibroblasts (Valianpour et al). 2002;141:729-33 (CLO)
Behavior
Physical therapy and cognitive-behavioral treatment for complex regional pain syndromes (Lee et al). 2002;141:135-40 (CLO)
Beta-galactosidase
Enhanced weight gain in preterm infants receiving lactase-treated feeds: a randomized, double-blind, controlled trial (Erasmus et al). 2002;141:532-7
Biliary atresia
Biliary atresia, the Kasai operation, and the chance of success (Badía et al). 2002;141:295-6 (Letter)
HLA in Egyptian children with biliary atresia (A-Kader et al). 2002;141:432-4 (CLO)
A population-based study on the incidence and possible pre- and perinatal etiologic risk factors of biliary atresia (Fischler et al). 2002;141:217-22
Biological warfare
Biological and chemical terrorism (Henretig et al). 2002;141:311-26. Correction 2002;141:743-6
Birth weight
Why are babies getting bigger? Temporal trends in fetal growth and its determinants (Kramer et al). 2002;141:538-42
Bisphosphonates; *see* Diphosphonates
Bladder, radiography
Results of systematic voiding cystourethrography in infants with antenatally diagnosed renal pelvis dilation (Ismaili et al). 2002;141:21-4
Blood
Macronutrient intake in anorexia nervosa: the National Heart,

Lung, and Blood Institute Growth and Health Study (Affenito et al). 2002;141:701-5

Blood pressure
The aging of the cardiovascular system: when should children be treated like adults? (Gidding). 2002;141:159-61 (Editorial)
Left atrial size in children with hypertension: the influence of obesity, blood pressure, and left ventricular mass (Daniels et al). 2002;141:186-90
Moderators of blood pressure development from childhood to adulthood: a 10-year longitudinal study (Dekkers et al). 2002;141:770-9

Blood transfusion
Early treatment with erythropoietin β ameliorates anemia and reduces transfusion requirements in infants with birth weights below 1000 g (Maier et al). 2002;141:8-15
Erythropoietin treatment in extremely low birth weight infants: blood in versus blood out (Ohls). 2002;141:3-6 (Editorial)
Stroke prevention trial in sickle cell anemia: comments on effects of chronic transfusion on pain (Gates et al) (Letter); (Miller et al) (Reply). 2002;141:742-3

Body composition
Altered bone mineral density and body composition, and increased fracture risk in childhood acute lymphoblastic leukemia (van der Sluis et al). 2002;141:204-10
A prospective study of bone mass and body composition in female adolescent gymnasts (Laing et al). 2002;141:211-6

Body height
Effectiveness of growth hormone treatment in short children with chronic renal failure (Mehls et al) (Letter); (Craig et al) (Reply). 2002;141:147-50
Indicators of adult height outcome in classical 21-hydroxylase deficiency congenital adrenal hyperplasia (Muirhead et al). 2002;141:247-52

Body weight
Disease severity at time of referral for pediatric failure to thrive and obesity: time for a paradigm shift? (Miller et al). 2002;141:121-4 (CLO)

Bone and bones
Chronic recurrent multifocal osteomyelitis: clinical outcomes after more than five years of follow-up (Huber et al). 2002;141:198-203
Osteomyelitis due to *Salmonella* infection (Long). 2002;141:276 (50 years ago)
Physiologic regulators of bone turnover in young women with anorexia nervosa (Gordon et al). 2002;141:64-70

Bone density
Altered bone mineral density and body composition, and increased fracture risk in childhood acute lymphoblastic leukemia (van der Sluis et al). 2002;141:204-10
Bones benefit from better biochemical control in type 1 glycogen storage disease (Wolfsdorf). 2002;141:308-10 (Editorial)
Gains in hip bone mass from high-impact training are maintained: a randomized controlled trial in children (Fuchs and Snow). 2002;141:357-62
Low bone mass in glycogen storage disease type 1 is associated with reduced muscle force and poor metabolic control (Schwahn et al). 2002;141:350-6
A prospective study of bone mass and body composition in female adolescent gymnasts (Laing et al). 2002;141:211-6

Bone diseases, metabolic
Bisphosphonates to treat osteopenia in children with quadriplegic cerebral palsy: a randomized, placebo-controlled clinical trial (Henderson et al). 2002;141:644-51

Bone marrow diseases
Aplastic anemia in Nijmegen breakage syndrome (Pasic). 2002;141:742 (Letter)

Brain
Brain 18-FDG PET scan in central nervous system Langerhans cell histiocytosis (Calming et al). 2002;141:435-40 (CLO)
Early brain atrophy in persistent hyperinsulinemic hypoglycemia of infancy (Nachum et al). 2002;141:706-9 (CLO)

Brain edema
Factors associated with adverse outcomes in children with diabetic ketoacidosis-related cerebral edema (Marcin et al). 2002;141:793-7
No gold at the ends of the glycemic rainbow (Sperling). 2002;141:754-6 (Editorial)

Breast-feeding
A breast-feeding assessment score to evaluate the risk for cessation of breast-feeding by 7 to 10 days of age (Hall et al). 2002;141:659-64
Breast-feeding and obesity (Gillman). 2002;141:749-50 (Editorial)
How much iron to supplement and when (Aziz et al) (Letter); (Domellöf et al) (Reply). 2002;141:146-7
A novel hypothesis on the pathophysiology of neonatal jaundice (Verkade). 2002;141:594-5 (Letter)
Overweight and obesity in 6- to 14-year-old Czech children in 1991: protective effect of breast-feeding (Toschke et al). 2002;141:764-9

Bronchial diseases
A nontoxic detergent for aerosol use in dissolving viscid bronchopulmonary secretions (Wilmott). 2002;141:30 (50 years ago)

Bronchiolitis, viral
A randomized, controlled trial of the effectiveness of nebulized therapy with epinephrine compared with albuterol and saline in infants hospitalized for acute viral bronchiolitis (Patel et al). 2002;141:818-24

Bronchoconstriction
Effectiveness of screening examinations to detect unrecognized exercise-induced bronchoconstriction (Hallstrand et al). 2002;141:343-9
Screening for exercise-induced asthma (Bokulic). 2002;141:306-8 (Editorial)

Bronchopulmonary dysplasia
Minimal ventilation to prevent bronchopulmonary dysplasia in extremely-low-birth-weight infants (Carlo et al). 2002;141:370-5
Neonatal lung injury and "new BPD": need for a new terminology (Makhoul). 2002;141:150 (Letter)

Bronchopulmonary secretions; *see* Bronchial diseases

Burkholderia cepacia
Preventing *Burkholderia cepacia* complex infection in cystic fibrosis: is there a middle ground? (LiPuma). 2002;141:467-9 (Editorial)
Risk factors for *Burkholderia cepacia* complex colonization and infection among patients with cystic fibrosis (Walsh et al). 2002;141:512-7

C

Canada
Prevalence of methylphenidate use and change over a two-year period: a nationwide study of 2- to 11-year-old Canadian children (Romano et al). 2002;141:71-5

Capillaries
Nailfold capillaroscopy in Henoch-Schönlein purpura: a follow-up study of 31 cases (Martino et al). 2002;141:145 (Insights)

Carcinoma
Primary carcinoma of the liver in a boy aged 20 months (Buchino). 2002;141:763 (50 years ago)

Cardiac abnormalities; *see* Heart, abnormalities
Cardiac disease; *see* Heart diseases
Cardiolipins
Cardiolipin deficiency in X-linked cardioskeletal myopathy and neutropenia (Barth syndrome, MIM 302060): a study in cultured skin fibroblasts (Valianpour et al). 2002;141:729-33 (CLO)
Cardiovascular system
The aging of the cardiovascular system: when should children be treated like adults? (Gidding). 2002;141:159-61 (Editorial)
Left atrial size in children with hypertension: the influence of obesity, blood pressure, and left ventricular mass (Daniels et al). 2002;141:186-90
Carnitine palmitoyltransferase
Lethal neonatal and severe late infantile forms of carnitine palmitoyltransferase II deficiency associated with compound heterozygosity for different protein truncation mutations (Vladutiu et al). 2002;141:734-6 (CLO)
Catheterization, central venous
Umbilical venous line displacement as a consequence of abdominal girth variation (Salvadori et al). 2002;141:737 (Insights)
Central nervous system diseases
Brain 18-FDG PET scan in central nervous system Langerhans cell histiocytosis (Calming et al). 2002;141:435-40 (CLO)
Postural and righting responses in children (Accardo). 2002;141:547 (50 years ago)
Central nervous system neoplasms
Conference at the Mount Sinai Hospital of New York (Buchino). 2002;141:44 (50 years ago)
Cerebral edema; *see* Brain edema
Cerebral palsy
Bisphosphonates to treat osteopenia in children with quadriplegic cerebral palsy: a randomized, placebo-controlled clinical trial (Henderson et al). 2002;141:644-51
The psychological evaluation of children with cerebral palsy and its implications in treatment (Accardo). 2002;141:651 (50 years ago)
Relationship of nutritional status to health and societal participation in children with cerebral palsy (Samson-Fang et al). 2002;141:637-43
Cerebrospinal fluid
Effect of combination antiretroviral therapy on cerebrospinal fluid HIV RNA, HIV resistance, and clinical manifestations of encephalopathy (McCoig et al). 2002;141:36-44
Cerebrovascular disorders
Hyperhomocysteinemia as risk factor for ischemic and hemorrhagic stroke in newborn infants (Hogeveen et al). 2002;141:429-31 (CLO)
Stroke prevention trial in sickle cell anemia: comments on effects of chronic transfusion on pain (Gates et al) (Letter); (Miller et al) (Reply). 2002;141:742-3
Certification
Why maintenance of certification? (Ham and Stockman). 2002;141:300
Why physicians are certified by boards (Chesney). 2002;141:299
Chemical warfare
Biological and chemical terrorism (Henretig et al). 2002;141:311-26. Correction 2002;141:743-6
Child, hospitalized
Development of a pediatric age- and disease-specific severity measure (Horn et al). 2002;141:496-503
The relationship between severity of illness and outcomes in hospitalized pediatric patients (Green). 2002;141:463-5 (Editorial)
Child, preschool
Case 3: hepatic cirrhosis (McLin). 2002;141:489 (50 years ago)
Insulin pump therapy in toddlers and preschool children with type 1 diabetes mellitus (Litton et al). 2002;141:490-5
Child abuse
Munchausen's syndrome by proxy web-mediated in a child with factitious hyperglycemia (Vanelli). 2002;141:839 (Letter)
Child development
Doxapram and neurodevelopmental outcome (Finer and Barrington) (Letter); (Sreenan et al) (Reply). 2002;141:296-7
A training program for pediatric residents in child development and guidance (Felice). 2002;141:404 (50 years ago)
Child development disorders
Predictors of developmental disabilities after open heart surgery in young children with congenital heart defects (Limperopoulos et al). 2002;141:51-8
Child guidance
A training program for pediatric residents in child development and guidance (Felice). 2002;141:404 (50 years ago)
Childhood acute lymphoblastic leukemia; *see* Leukemia, lymphocytic, acute, L1
Choroid plexus
Choroid plexus arteriovenous malformation presenting with intraventricular hemorrhage (Heck et al). 2002;141:710-1 (CLO)
Chromosomes
Neonatal diabetes mellitus: chromosomal analysis in transient and permanent cases (Metz et al). 2002;141:483-9
Understanding neonatal diabetes mellitus (Shield). 2002;141:462-3 (Editorial)
Chronic fatigue syndrome; *see* Fatigue syndrome, chronic
Chronic renal failure; *see* Kidney failure, chronic
Clinical clerkship
Promoting clerkship directors: the importance of evidence (Marcdante and Kliegman). 2002;141:1-2
Cognition disorders
Doxapram and neurodevelopmental outcome (Finer and Barrington) (Letter); (Sreenan et al) (Reply). 2002;141:296-7
Cognitive therapy
Physical therapy and cognitive-behavioral treatment for complex regional pain syndromes (Lee et al). 2002;141:135-40 (CLO)
Coitus
The interval between menarche and age of first sexual intercourse as a risk factor for subsequent HPV infection in adolescent and young adult women (Kahn et al). 2002;141:718-23 (CLO)
Combination drug therapy; *see* Drug therapy, combination
Combs
An observer-blinded study of 1% permethrin creme rinse with and without adjunctive combing in patients with head lice (Meinking et al). 2002;141:665-70
Commentary
Commentary. 2002;141:166-71
Computed tomography; *see* Tomography, x-ray computed
Computers
Eosinophil-associated gastrointestinal disorders: a world-wide web based registry (Guajardo et al). 2002;141:576-81 (CLO)
Munchausen's syndrome by proxy web-mediated in a child with factitious hyperglycemia (Vanelli). 2002;141:839 (Letter)
Congenital adrenal hyperplasia; *see* Adrenal hyperplasia, congenital
Congenital heart defects; *see* Heart defects, congenital
Congresses
Conference at the Mount Sinai Hospital of New York (Buchino). 2002;141:44 (50 years ago)

Continuous Glucose Monitoring System
Nocturnal hypoglycemia detected with the Continuous Glucose Monitoring System in pediatric patients with type 1 diabetes (Kaufman et al). 2002;141:625-30
Coronary arteriosclerosis
Long-term prevention of premature coronary atherosclerosis in homozygous familial hypercholesterolemia (Jaeger et al). 2002;141:125-8 (CLO)
Corrections
Biological and chemical terrorism (Henretig et al) (2002;141:311-26). 2002;141:743-6
Indwelling catheters used from the onset of diabetes decrease injection pain and pre-injection anxiety (Hanas et al) (2002;140:315-20). 2002;141:298
The Newborn Individualized Developmental Care and Assessment Program is not supported by meta-analyses of the data (Jacobs et al) (2002;140:699-706). 2002;141:451-2
Oral stimulation accelerates the transition from tube to oral feeding in preterm infants (Fucile et al) (2002;141:230-6). 2002;141:743
Prediction of outcome based on clinical seizure type in newborn infants (Brunquell et al) (2002;140:707-12). 2002;141:452
Correspondence; *see also* Letters
Cortisone
The diagnosis of the adrenogenital syndrome and its treatment with cortisone (Schwartz). 2002;141:817 (50 years ago)
Cost-benefit analysis
The diagnostic evaluation of children with cyclic vomiting: a cost-effectiveness assessment (Olson and Li). 2002;141:724-8 (CLO)
Evaluation of heart murmurs in children: cost-effectiveness and practical implications (Yi et al). 2002;141:504-11
Newborn screening with tandem mass spectrometry: examining its cost-effectiveness in the Wisconsin Newborn Screening Panel (Insinga et al). 2002;141:524-31
Sorting through the haystack—decision analysis and the search for heart disease among children with murmur (Danford). 2002;141:465-7 (Editorial)
Cough
A new approach to delivering cold, moist air to children with cough or wheezing: open the freezer door (Fisher). 2002;141:596-7 (Letter)
Cow's milk allergy; *see* Milk hypersensitivity
Crohn's disease
Self-assessment of sexual maturity status in children with Crohn's disease (Schall et al). 2002;141:223-9
Cutaneous manifestations; *see* Skin
Cyproheptadine
The diagnostic evaluation of children with cyclic vomiting: a cost-effectiveness assessment (Olson and Li). 2002;141:724-8 (CLO)
Cystic fibrosis
Antibiotic treatment and renal stone formation in cystic fibrosis (Alon) (Letter); (Böhles) (Reply). 2002;141:598
Dornase alfa in young patients with cystic fibrosis (Carter) (Letter); (Quan) (Reply). 2002;141:838-9
Effect of an organized lipid matrix on lipid absorption and clinical outcomes in patients with cystic fibrosis (Lepage et al). 2002;141:178-85
Employing the nasal potential difference as a diagnostic test for cystic fibrosis in neonates: potential pitfalls (Gaillard et al). 2002;141:295-6 (Letter)
Essential fatty acid deficiency and nutritional supplementation in cystic fibrosis (Lloyd-Still). 2002;141:157-9 (Editorial)
The impact of early cystic fibrosis diagnosis on pulmonary function in children (Wang et al). 2002;141:804-10
Induced sputum inflammatory measures correlate with lung function in children with cystic fibrosis (Sagel et al). 2002;141:811-7
Prenatal screening for cystic fibrosis: where are we now? (Farrell and Fost). 2002;141:758-63 (Invited commentary)
Preventing *Burkholderia cepacia* complex infection in cystic fibrosis: is there a middle ground? (LiPuma). 2002;141:467-9 (Editorial)
Risk factors for *Burkholderia cepacia* complex colonization and infection among patients with cystic fibrosis (Walsh et al). 2002;141:512-7
Cysts
Semitransparent meningocele at the occipital region (Muroi et al). 2002;141:294 (Insights)
Czechoslovakia
Breast-feeding and obesity (Gillman). 2002;141:749-50 (Editorial)
Overweight and obesity in 6- to 14-year-old Czech children in 1991: protective effect of breast-feeding (Toschke et al). 2002;141:764-9

D

Decision support techniques
Evaluation of heart murmurs in children: cost-effectiveness and practical implications (Yi et al). 2002;141:504-11
Sorting through the haystack—decision analysis and the search for heart disease among children with murmur (Danford). 2002;141:465-7 (Editorial)
Deletion, gene; *see* Gene deletion
Detergents
A nontoxic detergent for aerosol use in dissolving viscid bronchopulmonary secretions (Wilmott). 2002;141:30 (50 years ago)
Developmental disabilities; *see* Child development disorders
Diabetes, gestational
Infants of diabetic mothers are at increased risk for the oculo-auriculo-vertebral sequence: a case-based and case-control approach (Wang et al). 2002;141:611-7
Diabetes insipidus
Home sodium monitoring in patients with diabetes insipidus (Green and Landt). 2002;141:618-24
Diabetes mellitus
Infants of diabetic mothers are at increased risk for the oculo-auriculo-vertebral sequence: a case-based and case-control approach (Wang et al). 2002;141:611-7
Neonatal diabetes mellitus: chromosomal analysis in transient and permanent cases (Metz et al). 2002;141:483-9
Understanding neonatal diabetes mellitus (Shield). 2002;141:462-3 (Editorial)
Diabetes mellitus, insulin-dependent
Diabetes mellitus: type 1 or type 2? The accelerator hypothesis (Wilkin). 2002;141:449-50 (Letter)
Factors associated with adverse outcomes in children with diabetic ketoacidosis-related cerebral edema (Marcin et al). 2002;141:793-7
Insulin pump therapy in toddlers and preschool children with type 1 diabetes mellitus (Litton et al). 2002;141:490-5
No gold at the ends of the glycemic rainbow (Sperling). 2002;141:754-6 (Editorial)
Nocturnal hypoglycemia detected with the Continuous Glucose Monitoring System in pediatric patients with type 1 diabetes (Kaufman et al). 2002;141:625-30
QTc interval prolongation and QTc dispersion in children and adolescents with type 1 diabetes (Suys et al). 2002;141:59-63
Diabetes mellitus, non-insulin-dependent
Breast-feeding and obesity (Gillman). 2002;141:749-50 (Editorial)

Diabetes mellitus: type I or type 2? The accelerator hypothesis (Wilkin). 2002;141:449-50 (Letter)
Overweight and obesity in 6- to 14-year-old Czech children in 1991: protective effect of breast-feeding (Toschke et al). 2002;141:764-9
Parental history and early-onset type 2 diabetes in African Americans and Latinos in Chicago (Onyemere and Lipton). 2002;141:825-9
Recurrent necrobiosis lipoidica diabeticorum associated with venous insufficiency in an adolescent with poorly controlled type 2 diabetes mellitus (Yigit and Estrada). 2002;141:280-2 (CLO)

Diabetic ketoacidosis
Factors associated with adverse outcomes in children with diabetic ketoacidosis-related cerebral edema (Marcin et al). 2002;141:793-7
No gold at the ends of the glycemic rainbow (Sperling). 2002;141:754-6 (Editorial)

Diagnosis
Clinical findings leading to the diagnosis of X-linked agammaglobulinemia (Conley and Howard). 2002;141:566-71 (CLO)
The diagnosis of the adrenogenital syndrome and its treatment with cortisone (Schwartz). 2002;141:817 (50 years ago)
The diagnostic evaluation of children with cyclic vomiting: a cost-effectiveness assessment (Olson and Li). 2002;141:724-8 (CLO)
What factors influence the age at diagnosis of hemophilia? Results of the French hemophilia cohort (Chambost et al). 2002;141:548-52

Diagnostic imaging
Results of systematic voiding cystourethrography in infants with antenatally diagnosed renal pelvis dilation (Ismaili et al). 2002;141:21-4
VCUG timing (Alon) (Letter); (Mahant et al) (Reply). 2002;141:146

Diaphragmatic hernia; *see* Hernia, diaphragmatic

Diarrhea
Efficacy of zinc-fortified oral rehydration solution in 6- to 35-month-old children with acute diarrhea (Bahl et al). 2002;141:677-82
Shiga toxin-producing *E coli*: two tests are better than one (Cohen). 2002;141:155-6 (Editorial)
Shiga toxin-producing *Escherichia coli* in children with diarrhea: a prospective point-of-care study (Klein et al). 2002;141:172-7

Diphosphonates
Bisphosphonates to treat osteopenia in children with quadriplegic cerebral palsy: a randomized, placebo-controlled clinical trial (Henderson et al). 2002;141:644-51

Directors; *see* Health personnel

Disease
Development of a pediatric age- and disease-specific severity measure (Horn et al). 2002;141:496-503
The relationship between severity of illness and outcomes in hospitalized pediatric patients (Green). 2002;141:463-5 (Editorial)

Disease severity; *see* Severity of illness index

DNA mutational analysis
Aplastic anemia in Nijmegen breakage syndrome (Pasic). 2002;141:742 (Letter)

Dornase alfa
Dornase alfa in young patients with cystic fibrosis (Carter) (Letter); (Quan) (Reply). 2002;141:838-9

Dose-response relationship, drug
Dose response of PEG 3350 for the treatment of childhood fecal impaction (Youssef et al). 2002;141:410-4
Initial treatment dose of L-thyroxine in congenital hypothyroidism (Selva et al). 2002;141:786-92
Time course to hypothyroidism after fixed-dose radioablation therapy of Graves' disease in children (Nebesio et al). 2002;141:99-103

Doxapram
Doxapram and neurodevelopmental outcome (Finer and Barrington) (Letter); (Sreenan et al) (Reply). 2002;141:296-7

Drinking
The most essential nutrient: defining the adequate intake of water (Manz et al). 2002;141:587-92 (CLO)

Drug resistance, microbial
Prevention of otitis media: role of pneumococcal conjugate vaccines in reducing incidence and antibiotic resistance (Jacobs). 2002;141:287-93 (Grand rounds)

Drug therapy, combination
Effect of combination antiretroviral therapy on cerebrospinal fluid HIV RNA, HIV resistance, and clinical manifestations of encephalopathy (McCoig et al). 2002;141:36-44

Drug tolerance
Efficacy, tolerability, and kinetics of lamotrigine in infants (Mikati et al). 2002;141:31-5

Duchenne muscular dystrophy; *see* Muscular dystrophy

Dysautonomia, familial
No pains, many gains (Fernhoff). 2002;141:470-1 (Editorial)
Survival in familial dysautonomia: impact of early intervention (Axelrod et al). 2002;141:518-23

E

Ear, abnormalities
Pre-auricular tags and pits in the newborn: the role of renal ultrasonography (Kugelman et al). 2002;141:388-91

Eating disorders
Macronutrient intake in anorexia nervosa: the National Heart, Lung, and Blood Institute Growth and Health Study (Affenito et al). 2002;141:701-5
Physiologic regulators of bone turnover in young women with anorexia nervosa (Gordon et al). 2002;141:64-70

Editorials
The aging of the cardiovascular system: when should children be treated like adults? (Gidding). 2002;141:159-61
Bones benefit from better biochemical control in type 1 glycogen storage disease (Wolfsdorf). 2002;141:308-10
Breast-feeding and obesity (Gillman). 2002;141:749-50
Erythropoietin treatment in extremely low birth weight infants: blood in versus blood out (Ohls). 2002;141:3-6
Essential fatty acid deficiency and nutritional supplementation in cystic fibrosis (Lloyd-Still). 2002;141:157-9
Fetal nutrition and insulin sensitivity: the genetic and environmental aspects of "thrift" (Rosenbloom). 2002;141:459-62
Increased asthma symptoms and healthcare utilization during the fall and winter seasons in children with asthma living in the inner city: opportunity for school-based intervention (Guilbert and Morgan). 2002;141:604-5
Is failure to thrive a greater concern than obesity? (Dietz and Mei). 2002;141:6-7
Is genotype important in predicting the fetal alcohol syndrome? (Chambers and Jones). 2002;141:751-2
No gold at the ends of the glycemic rainbow (Sperling). 2002;141:754-6
No pains, many gains (Fernhoff). 2002;141:470-1
Paying for children to participate in research: a slippery slope or an enlightened stairway? (Fernhoff). 2002;141:153-4
Pediatric end-stage renal disease: heart as a target (Mitsnefes). 2002;141:162-4
Preventing *Burkholderia cepacia* complex infection in cystic fibrosis: is there a middle ground? (LiPuma). 2002;141:467-9
Randomized trials and recruitment tribulations: rethinking the research enterprise (Wasserman). 2002;141:756-7

The relationship between severity of illness and outcomes in hospitalized pediatric patients (Green). 2002;141:463-5
Screening for exercise-induced asthma (Bokulic). 2002;141:306-8
Shiga toxin-producing *E coli*: two tests are better than one (Cohen). 2002;141:155-6
Shooting at a moving target: natural history studies and the rapidly improving state of anti-HIV treatment (McKinney). 2002;141:301-2
Shwachman-Diamond syndrome (Mack). 2002;141:164-5
Sorting through the haystack—decision analysis and the search for heart disease among children with murmur (Danford). 2002;141:465-7
Titration of growth hormone dose using insulin-like growth factor-1 measurements: is it feasible in children? (Bercu). 2002;141:601-3
Treatment of the infant with congenital hypothyroidism (Hopwood). 2002;141:752-4
Understanding neonatal diabetes mellitus (Shield). 2002;141:462-3
Unexpected infant death: occult cardiac disease and sudden infant death syndrome—how much of an overlap is there? (Byard). 2002;141:303-5

Education, medical
Pediatric practice and education in the genomic/postgenomic era (Chesney et al). 2002;141:453-8
Perinatal outreach education—the role of academic medical centers (Hein). 2002;141:151-2
Promoting the use of evidence-based medicine in pediatrics (Frohna and Park). 2002;141:599-600
A training program for pediatric residents in child development and guidance (Felice). 2002;141:404 (50 years ago)

Egypt
HLA in Egyptian children with biliary atresia (A-Kader et al). 2002;141:432-4 (CLO)

ELBW infant; *see* Infant, low birth weight

Electrocardiography
Mechanism of sudden cardiac arrest while swimming in a child with the prolonged QT syndrome (Batra and Silka). 2002;141:283-4 (CLO)
QTc interval prolongation and QTc dispersion in children and adolescents with type 1 diabetes (Suys et al). 2002;141:59-63

Electrophysiology
Prediction of outcome after hypoxic-ischemic encephalopathy: a prospective clinical and electrophysiologic study (Mandel et al). 2002;141:45-50

Emotional distress; *see* Stress, psychological

Emphysema
Lobar emphysema in infants and children (deMello). 2002;141:586 (50 years ago)

Encephalopathies
Prediction of outcome after hypoxic-ischemic encephalopathy: a prospective clinical and electrophysiologic study (Mandel et al). 2002;141:45-50

Encephalopathy, HIV; *see* AIDS dementia complex

End stage renal disease; *see* Kidney failure, chronic

Enteral nutrition
Oral stimulation accelerates the transition from tube to oral feeding in preterm infants (Fucile et al). 2002;141:230-6. Correction 2002;141:743
Paraffin-tipped polyethylene tubing for feeding of premature babies, infants, and children (Lemons). 2002;141:190 (50 years ago)
Polyethylene tube feeding in premature infants (Lemons). 2002;141:190 (50 years ago)

Enterostomy
Biliary atresia, the Kasai operation, and the chance of success (Badía et al). 2002;141:295-6 (Letter)

Environment
Fetal nutrition and insulin sensitivity: the genetic and environmental aspects of "thrift" (Rosenbloom). 2002;141:459-62 (Editorial)
Intrauterine growth restriction and postnatal steroid treatment effects on insulin sensitivity in preterm neonates (Leipälä et al). 2002;141:472-6

Environmental exposure
Prevalence and correlates of household exposures to tobacco smoke and pets in children with asthma (Wamboldt et al). 2002;141:109-15

Enzymes
Serum pancreatic enzymes define the pancreatic phenotype in patients with Shwachman-Diamond syndrome (Ip et al). 2002;141:259-65
Shwachman-Diamond syndrome (Mack). 2002;141:164-5 (Editorial)
Shwachman-Diamond syndrome: report from an international conference (Rothbaum et al). 2002;141:266-70 (Grand rounds)

Eosinophils
Eosinophil-associated gastrointestinal disorders: a world-wide web based registry (Guajardo et al). 2002;141:576-81 (CLO)

Epidermolysis bullosa, junctional
Treatment of two patients with Herlitz junctional epidermolysis bullosa with artificial skin bioequivalents (Jiang et al). 2002;141:553-9

Epinephrine
A randomized, controlled trial of the effectiveness of nebulized therapy with epinephrine compared with albuterol and saline in infants hospitalized for acute viral bronchiolitis (Patel et al). 2002;141:818-24

Epoprostenol
Inhaled prostacyclin for term infants with persistent pulmonary hypertension refractory to inhaled nitric oxide (Kelly et al). 2002;141:830-2 (CLO)

Erythromycin
Erythromycin in ELBW infants (Shiima et al). 2002;141:297-8 (Letter)

Erythropoietin
Early treatment with erythropoietin β ameliorates anemia and reduces transfusion requirements in infants with birth weights below 1000 g (Maier et al). 2002;141:8-15
Erythropoietin treatment in extremely low birth weight infants: blood in versus blood out (Ohls). 2002;141:3-6 (Editorial)

Escherichia coli
Shiga toxin-producing *E coli*: two tests are better than one (Cohen). 2002;141:155-6 (Editorial)
Shiga toxin-producing *Escherichia coli* in children with diarrhea: a prospective point-of-care study (Klein et al). 2002;141:172-7

Ethics
The ethics of paying for children's participation in research (Wendler et al). 2002;141:166-71 (Commentary)
Paying for children to participate in research: a slippery slope or an enlightened stairway? (Fernhoff). 2002;141:153-4 (Editorial)

Ethnic groups
Clinical and molecular features of congenital disorder of glycosylation in patients with type 1 sialotransferrin pattern and diverse ethnic origins (Enns et al). 2002;141:695-700
Moderators of blood pressure development from childhood to adulthood: a 10-year longitudinal study (Dekkers et al). 2002;141:770-9

Etiology
A population-based study on the incidence and possible pre-

and perinatal etiologic risk factors of biliary atresia (Fischler et al). 2002;141:217-22

Evidence-based medicine
Promoting the use of evidence-based medicine in pediatrics (Frohna and Park). 2002;141:599-600

Exercise
Effectiveness of screening examinations to detect unrecognized exercise-induced bronchoconstriction (Hallstrand et al). 2002;141:343-9
Hemostatic and inflammatory markers in obese youths: effects of exercise and adiposity (Barbeau et al). 2002;141:415-20
Screening for exercise-induced asthma (Bokulic). 2002;141:306-8 (Editorial)

Extracorporeal membrane oxygenation
The incidence and characteristics of neonatal irreversible lung dysplasia (Cassidy et al). 2002;141:426-8 (CLO)

Extremities, lower
The risk of postthrombotic syndrome in children with congenital heart disease (van Ommen et al). 2002;141:582-6 (CLO)

F

Face
Application of the fetal alcohol syndrome facial photographic screening tool in a foster care population (Astley et al). 2002;141:712-7 (CLO)
Cutaneous manifestations of hyper-IgE syndrome in infants and children (Chamlin et al). 2002;141:572-5 (CLO)

Faculty
Promoting clerkship directors: the importance of evidence (Marcdante and Kliegman). 2002;141:1-2

Failure to thrive
Disease severity at time of referral for pediatric failure to thrive and obesity: time for a paradigm shift? (Miller et al). 2002;141:121-4 (CLO)
Is failure to thrive a greater concern than obesity? (Dietz and Mei). 2002;141:6-7 (Editorial)

Familial hypercholesterolemia; *see* Hypercholesterolemia, familial

Fatigue syndrome, chronic
Joint hypermobility is more common in children with chronic fatigue syndrome than in healthy controls (Barron et al). 2002;141:421-5

Fats
A novel hypothesis on the pathophysiology of neonatal jaundice (Verkade). 2002;141:594-5 (Letter)

Fatty acids
Effect of an organized lipid matrix on lipid absorption and clinical outcomes in patients with cystic fibrosis (Lepage et al). 2002;141:178-85
Essential fatty acid deficiency and nutritional supplementation in cystic fibrosis (Lloyd-Still). 2002;141:157-9 (Editorial)
Postmortem screening for fatty acid oxidation disorders by analysis of Guthrie cards with tandem mass spectrometry in sudden unexpected death in infancy (Wilcox et al). 2002;141:833-6 (CLO)

Feces
How useful is fecal pancreatic elastase 1 as a marker of exocrine pancreatic disease? (Beharry et al). 2002;141:84-90

Feces, impacted
Dose response of PEG 3350 for the treatment of childhood fecal impaction (Youssef et al). 2002;141:410-4

Feeding methods
A breast-feeding assessment score to evaluate the risk for cessation of breast-feeding by 7 to 10 days of age (Hall et al). 2002;141:659-64
Enhanced weight gain in preterm infants receiving lactase-treated feeds: a randomized, double-blind, controlled trial (Erasmus et al). 2002;141:532-7
Oral stimulation accelerates the transition from tube to oral feeding in preterm infants (Fucile et al). 2002;141:230-6. Correction 2002;141:743
Paraffin-tipped polyethylene tubing for feeding of premature babies, infants, and children (Lemons). 2002;141:190 (50 years ago)
Polyethylene tube feeding in premature infants (Lemons). 2002;141:190 (50 years ago)

Ferritin
Iron status at 9 months of infants with low iron stores at birth (Georgieff et al). 2002;141:405-9

Fetal alcohol syndrome
Alcohol dehydrogenase 2 genotypes, maternal alcohol use, and infant outcome (Stoler et al). 2002;141:780-5
Application of the fetal alcohol syndrome facial photographic screening tool in a foster care population (Astley et al). 2002;141:712-7 (CLO)
Is genotype important in predicting the fetal alcohol syndrome? (Chambers and Jones). 2002;141:751-2 (Editorial)
Microcephaly and fetal alcohol syndrome (Hanley) (Letter); (Vargas et al) (Reply). 2002;141:449

Fetal development
Why are babies getting bigger? Temporal trends in fetal growth and its determinants (Kramer et al). 2002;141:538-42

Fetal growth retardation
Fetal nutrition and insulin sensitivity: the genetic and environmental aspects of "thrift" (Rosenbloom). 2002;141:459-62 (Editorial)
Intrauterine growth restriction and postnatal steroid treatment effects on insulin sensitivity in preterm neonates (Leipälä et al). 2002;141:472-6

Fibroblasts
Cardiolipin deficiency in X-linked cardioskeletal myopathy and neutropenia (Barth syndrome, MIM 302060): a study in cultured skin fibroblasts (Valianpour et al). 2002;141:729-33 (CLO)

Fluid therapy
Efficacy of zinc-fortified oral rehydration solution in 6- to 35-month-old children with acute diarrhea (Bahl et al). 2002;141:677-82

Formula, infant; *see* Infant food

Foster home care
Application of the fetal alcohol syndrome facial photographic screening tool in a foster care population (Astley et al). 2002;141:712-7 (CLO)

Fractures
Altered bone mineral density and body composition, and increased fracture risk in childhood acute lymphoblastic leukemia (van der Sluis et al). 2002;141:204-10

France
What factors influence the age at diagnosis of hemophilia? Results of the French hemophilia cohort (Chambost et al). 2002;141:548-52

Frontal lobe
Multifocal desmoplastic astrocytoma, frontal lobe dysplasia, and simian crease (Bock et al). 2002;141:445 (Insights)

G

Gangrene
Acute gangrenous appendicitis in a premature infant (Long and Vincour). 2002;141:537 (50 years ago)

Gantrisin; *see* Sulfisoxazole

Gasoline
Addiction to the inhalation of gasoline fumes in a child (Scalzo). 2002;141:349 (50 years ago)
Gastroesophageal reflux
Influence of nasogastric tubes on gastroesophageal reflux in preterm infants: a multiple intraluminal impedance study (Peter et al). 2002;141:277-9 (CLO)
Gastrointestinal diseases
Eosinophil-associated gastrointestinal disorders: a world-wide web based registry (Guajardo et al). 2002;141:576-81 (CLO)
Gastrointestinal abnormalities in patients with right isomerism (Piecuch) (Letter); (Wu) (Reply). 2002;141:595-6
Gene deletion
Thyroid disease in children with 22q11.2 deletion syndrome (Preece and Smith). 2002;141:297 (Letter)
Genetics
Fetal nutrition and insulin sensitivity: the genetic and environmental aspects of "thrift" (Rosenbloom). 2002;141:459-62 (Editorial)
Intrauterine growth restriction and postnatal steroid treatment effects on insulin sensitivity in preterm neonates (Leipälä et al). 2002;141:472-6
Genome
Pediatric practice and education in the genomic/postgenomic era (Chesney et al). 2002;141:453-8
Genotype
Alcohol dehydrogenase 2 genotypes, maternal alcohol use, and infant outcome (Stoler et al). 2002;141:780-5
Is genotype important in predicting the fetal alcohol syndrome? (Chambers and Jones). 2002;141:751-2 (Editorial)
Gestational age
Why are babies getting bigger? Temporal trends in fetal growth and its determinants (Kramer et al). 2002;141:538-42
Gingival neoplasms
Gingival mass in a newborn infant diagnosed in utero (Kovacs et al). 2002;141:837 (Insights)
Glomerulonephritis
The effects of magnesium sulfate on renal function in children with acute glomerulonephritis (Welch). 2002;141:728 (50 years ago)
Glucose
Nocturnal hypoglycemia detected with the Continuous Glucose Monitoring System in pediatric patients with type 1 diabetes (Kaufman et al). 2002;141:625-30
Glycogen storage disease type I
Bones benefit from better biochemical control in type 1 glycogen storage disease (Wolfsdorf). 2002;141:308-10 (Editorial)
Low bone mass in glycogen storage disease type 1 is associated with reduced muscle force and poor metabolic control (Schwahn et al). 2002;141:350-6
Glycosylation
Clinical and molecular features of congenital disorder of glycosylation in patients with type 1 sialotransferrin pattern and diverse ethnic origins (Enns et al). 2002;141:695-700
Goldenhar syndrome
Infants of diabetic mothers are at increased risk for the oculo-auriculo-vertebral sequence: a case-based and case-control approach (Wang et al). 2002;141:611-7
Gonads
Low birth weight for gestational age and subsequent male gonadal function (Cicognani et al). 2002;141:376-80
Government
Pediatrics and the legislature: suggestions for lobbying your legislature (Maddy and Cook). 2002;141:747-8
Grand rounds
Grand rounds. 2002;141:116-20, 266-70, 287-93
Graves' disease
Time course to hypothyroidism after fixed-dose radioablation therapy of Graves' disease in children (Nebesio et al). 2002;141:99-103
Great Britain
The incidence and characteristics of neonatal irreversible lung dysplasia (Cassidy et al). 2002;141:426-8 (CLO)
Growth disorders
Effectiveness of growth hormone treatment in short children with chronic renal failure (Mehls et al) (Letter); (Craig et al) (Reply). 2002;141:147-50
Is insulin-like growth factor-1 monitoring useful in assessing the response to growth hormone of growth hormone-deficient children? (Lanes and Jakubowicz). 2002;141:606-10
Polyhydramnios: a predictor of severe growth impairment in achondroplasia (Latini et al). 2002;141:274-6 (CLO)
Protein insufficiency and linear growth restriction in phenylketonuria (Arnold et al). 2002;141:243-6
Titration of growth hormone dose using insulin-like growth factor-1 measurements: is it feasible in children? (Bercu). 2002;141:601-3 (Editorial)
Growth hormone, pituitary; *see* Somatotropin
Guidance, child; *see* Child guidance
Gymnastics
A prospective study of bone mass and body composition in female adolescent gymnasts (Laing et al). 2002;141:211-6

H

Hair
Premature pubarche in girls is associated with functional adrenal but not ovarian hyperandrogenism (Mathew et al). 2002;141:91-8
Hair preparations
An observer-blinded study of 1% permethrin creme rinse with and without adjunctive combing in patients with head lice (Meinking et al). 2002;141:665-70
Health
Macronutrient intake in anorexia nervosa: the National Heart, Lung, and Blood Institute Growth and Health Study (Affenito et al). 2002;141:701-5
Relationship of nutritional status to health and societal participation in children with cerebral palsy (Samson-Fang et al). 2002;141:637-43
Health personnel
Promoting clerkship directors: the importance of evidence (Marcdante and Kliegman). 2002;141:1-2
Health services
Recurrent pain, emotional distress, and health service use in childhood (Campo et al). 2002;141:76-83
Hearing disorders
Pre-auricular tags and pits in the newborn: the role of renal ultrasonography (Kugelman et al). 2002;141:388-91
Heart
Cardiovascular mortality in children and young adults with end-stage kidney disease (Parekh et al). 2002;141:191-7
Macronutrient intake in anorexia nervosa: the National Heart, Lung, and Blood Institute Growth and Health Study (Affenito et al). 2002;141:701-5
Pediatric end-stage renal disease: heart as a target (Mitsnefes). 2002;141:162-4 (Editorial)
Heart, abnormalities
Incidence of cardiac abnormalities in children with human immunodeficiency virus infection: the Prospective P^2C^2 HIV Study (Starc et al). 2002;141:327-35
Shooting at a moving target: natural history studies and the

rapidly improving state of anti-HIV treatment (McKinney). 2002;141:301-2 (Editorial)

Heart arrest
Mechanism of sudden cardiac arrest while swimming in a child with the prolonged QT syndrome (Batra and Silka). 2002;141:283-4 (CLO)

Heart atrium
The aging of the cardiovascular system: when should children be treated like adults? (Gidding). 2002;141:159-61 (Editorial)
Left atrial size in children with hypertension: the influence of obesity, blood pressure, and left ventricular mass (Daniels et al). 2002;141:186-90

Heart defects, congenital
Cardiac pathology in sudden unexpected infant death (Dancea et al). 2002;141:336-42
Influence of congenital heart disease on survival in children with congenital diaphragmatic hernia (Cohen et al). 2002;141:25-30
Predictors of developmental disabilities after open heart surgery in young children with congenital heart defects (Limperopoulos et al). 2002;141:51-8
The risk of postthrombotic syndrome in children with congenital heart disease (van Ommen et al). 2002;141:582-6 (CLO)

Heart diseases
Unexpected infant death: occult cardiac disease and sudden infant death syndrome—how much of an overlap is there? (Byard). 2002;141:303-5 (Editorial)

Heart murmurs
Evaluation of heart murmurs in children: cost-effectiveness and practical implications (Yi et al). 2002;141:504-11
Sorting through the haystack—decision analysis and the search for heart disease among children with murmur (Danford). 2002;141:465-7 (Editorial)

Heart surgery
Predictors of developmental disabilities after open heart surgery in young children with congenital heart defects (Limperopoulos et al). 2002;141:51-8

Heart ventricle
The aging of the cardiovascular system: when should children be treated like adults? (Gidding). 2002;141:159-61 (Editorial)
Left atrial size in children with hypertension: the influence of obesity, blood pressure, and left ventricular mass (Daniels et al). 2002;141:186-90
Thrombus in the left ventricle of a newborn (de Godoy et al). 2002;141:141 (Insights)

Height; *see* Body height

Hematology
Serum pancreatic enzymes define the pancreatic phenotype in patients with Shwachman-Diamond syndrome (Ip et al). 2002;141:259-65
Shwachman-Diamond syndrome (Mack). 2002;141:164-5 (Editorial)
Shwachman-Diamond syndrome: report from an international conference (Rothbaum et al). 2002;141:266-70 (Grand rounds)

Hemophilia
What factors influence the age at diagnosis of hemophilia? Results of the French hemophilia cohort (Chambost et al). 2002;141:548-52

Hemorrhage
Choroid plexus arteriovenous malformation presenting with intraventricular hemorrhage (Heck et al). 2002;141:710-1 (CLO)
Grading of hemorrhage in children with idiopathic thrombocytopenic purpura (Buchanan and Adix). 2002;141:683-8

Hemorrhagic stroke; *see* Cerebrovascular disorders

Hemostasis
Hemostatic and inflammatory markers in obese youths: effects of exercise and adiposity (Barbeau et al). 2002;141:415-20

Henoch-Schönlein purpura; *see* Purpura, Schönlein-Henoch

Herlitz junctional epidermolysis bullosa; *see* Epidermolysis bullosa, junctional

Hernia, diaphragmatic
Influence of congenital heart disease on survival in children with congenital diaphragmatic hernia (Cohen et al). 2002;141:25-30

Heterozygote
Lethal neonatal and severe late infantile forms of carnitine palmitoyltransferase II deficiency associated with compound heterozygosity for different protein truncation mutations (Vladutiu et al). 2002;141:734-6 (CLO)

Hip
Gains in hip bone mass from high-impact training are maintained: a randomized controlled trial in children (Fuchs and Snow). 2002;141:357-62

Histiocytosis, Langerhans cell
Brain 18-FDG PET scan in central nervous system Langerhans cell histiocytosis (Calming et al). 2002;141:435-40 (CLO)

HIV
Effect of combination antiretroviral therapy on cerebrospinal fluid HIV RNA, HIV resistance, and clinical manifestations of encephalopathy (McCoig et al). 2002;141:36-44
Incidence of cardiac abnormalities in children with human immunodeficiency virus infection: the Prospective P^2C^2 HIV Study (Starc et al). 2002;141:327-35
Shooting at a moving target: natural history studies and the rapidly improving state of anti-HIV treatment (McKinney). 2002;141:301-2 (Editorial)

HLA antigens
HLA in Egyptian children with biliary atresia (A-Kader et al). 2002;141:432-4 (CLO)

Home nursing
Home sodium monitoring in patients with diabetes insipidus (Green and Landt). 2002;141:618-24

Homocysteine
Hyperhomocysteinemia as risk factor for ischemic and hemorrhagic stroke in newborn infants (Hogeveen et al). 2002;141:429-31 (CLO)

Homozygote
Long-term prevention of premature coronary atherosclerosis in homozygous familial hypercholesterolemia (Jaeger et al). 2002;141:125-8 (CLO)

Hormones
Increased adrenocortical and adrenomedullary hormonal activity in 12-year-old children born small for gestational age (Tenhola et al). 2002;141:477-82

Hospitalized child; *see* Child, hospitalized

HPV infection; *see* Papillomaviruses

Hydroxylases
Indicators of adult height outcome in classical 21-hydroxylase deficiency congenital adrenal hyperplasia (Muirhead et al). 2002;141:247-52

Hyperandrogenism; *see* Androgens

Hypercholesterolemia, familial
Long-term prevention of premature coronary atherosclerosis in homozygous familial hypercholesterolemia (Jaeger et al). 2002;141:125-8 (CLO)

Hyperglycemia
Munchausen's syndrome by proxy web-mediated in a child with factitious hyperglycemia (Vanelli). 2002;141:839 (Letter)

Hyperinsulinism
Early brain atrophy in persistent hyperinsulinemic hypo-

glycemia of infancy (Nachum et al). 2002;141:706-9 (CLO)

Hyperkalemia
Efficacy of albuterol inhalation in treatment of hyperkalemia in premature neonates (Singh et al). 2002;141:16-20

Hyperlipasemia; *see* Lipase

Hypertension
The aging of the cardiovascular system: when should children be treated like adults? (Gidding). 2002;141:159-61 (Editorial)
Left atrial size in children with hypertension: the influence of obesity, blood pressure, and left ventricular mass (Daniels et al). 2002;141:186-90

Hypertrophy
Congenital hypertrophic pyloric stenosis in a small premature infant (Long). 2002;141:476 (50 years ago)

Hypocholesterolemia
Hypocholesterolemia in children and adolescents with β-thalassemia intermedia (Hartman et al). 2002;141:543-7

Hypoglycemia
Early brain atrophy in persistent hyperinsulinemic hypoglycemia of infancy (Nachum et al). 2002;141:706-9 (CLO)
Nocturnal hypoglycemia detected with the Continuous Glucose Monitoring System in pediatric patients with type 1 diabetes (Kaufman et al). 2002;141:625-30

Hypothalamic neoplasms
Multifocal desmoplastic astrocytoma, frontal lobe dysplasia, and simian crease (Bock et al). 2002;141:445 (Insights)

Hypothyroidism
Initial treatment dose of L-thyroxine in congenital hypothyroidism (Selva et al). 2002;141:786-92
Time course to hypothyroidism after fixed-dose radioablation therapy of Graves' disease in children (Nebesio et al). 2002;141:99-103
Treatment of the infant with congenital hypothyroidism (Hopwood). 2002;141:752-4 (Editorial)

Hypoxemia; *see* Anoxemia

Hypoxia; *see* Anoxia

I

Idiopathic thrombocytopenic purpura; *see* Purpura, thrombocytopenic, idiopathic

IgE
Cutaneous manifestations of hyper-IgE syndrome in infants and children (Chamlin et al). 2002;141:572-5 (CLO)

Immunization
Optimizing immunization—going beyond parent reminders (Kwee). 2002;141:296 (Letter)

Immunoglobulins, intravenous
Decreased nitric oxide production after intravenous immunoglobulin treatment in patients with Kawasaki disease (Wang et al). 2002;141:560-5

Incidence
The incidence and characteristics of neonatal irreversible lung dysplasia (Cassidy et al). 2002;141:426-8 (CLO)
A population-based study on the incidence and possible pre- and perinatal etiologic risk factors of biliary atresia (Fischler et al). 2002;141:217-22
Prevention of otitis media: role of pneumococcal conjugate vaccines in reducing incidence and antibiotic resistance (Jacobs). 2002;141:287-93 (Grand rounds)

Infant
Allergy to extensively hydrolyzed cow's milk proteins in infants: safety and duration of amino acid–based formula (de Boissieu and Dupont). 2002;141:271-3 (CLO)
Development of airway function in infancy after preterm delivery (Hoo et al). 2002;141:652-8
Efficacy, tolerability, and kinetics of lamotrigine in infants (Mikati et al). 2002;141:31-5
Efficacy of zinc-fortified oral rehydration solution in 6- to 35-month-old children with acute diarrhea (Bahl et al). 2002;141:677-82
How much iron to supplement and when (Aziz et al) (Letter); (Domellöf et al) (Reply). 2002;141:146-7
Infants of diabetic mothers are at increased risk for the oculo-auriculo-vertebral sequence: a case-based and case-control approach (Wang et al). 2002;141:611-7
Iron status at 9 months of infants with low iron stores at birth (Georgieff et al). 2002;141:405-9
Is failure to thrive a greater concern than obesity? (Dietz and Mei). 2002;141:6-7 (Editorial)
The metabolic response to intravenous medium-chain triglycerides in infants after surgery (Donnell et al). 2002;141:689-94

Infant, diseases
Alcohol dehydrogenase 2 genotypes, maternal alcohol use, and infant outcome (Stoler et al). 2002;141:780-5
Cutaneous manifestations of hyper-IgE syndrome in infants and children (Chamlin et al). 2002;141:572-5 (CLO)
Early brain atrophy in persistent hyperinsulinemic hypoglycemia of infancy (Nachum et al). 2002;141:706-9 (CLO)
Inhaled prostacyclin for term infants with persistent pulmonary hypertension refractory to inhaled nitric oxide (Kelly et al). 2002;141:830-2(CLO)
Initial treatment dose of L-thyroxine in congenital hypothyroidism (Selva et al). 2002;141:786-92
Is genotype important in predicting the fetal alcohol syndrome? (Chambers and Jones). 2002;141:751-2 (Editorial)
Lethal neonatal and severe late infantile forms of carnitine palmitoyltransferase II deficiency associated with compound heterozygosity for different protein truncation mutations (Vladutiu et al). 2002;141:734-6 (CLO)
Lobar emphysema in infants and children (deMello). 2002;141:586 (50 years ago)
Methemoglobinemia in an infant receiving nitric oxide after the use of eutectic mixture of local anesthetic (Sinisterra et al). 2002;141:285-6 (CLO)
Pneumomediastinum and subcutaneous emphysema in an 18-month-old child (Gesundheit et al). 2002;141:116-20 (Grand rounds)
Primary carcinoma of the liver in a boy aged 20 months (Buchino). 2002;141:763 (50 years ago)
Pseudomonas infections in infants and children (O'Connor). 2002;141:664 (50 years ago)
A randomized, controlled trial of the effectiveness of nebulized therapy with epinephrine compared with albuterol and saline in infants hospitalized for acute viral bronchiolitis (Patel et al). 2002;141:818-24
Results of systematic voiding cystourethrography in infants with antenatally diagnosed renal pelvis dilation (Ismaili et al). 2002;141:21-4
Treatment of the infant with congenital hypothyroidism (Hopwood). 2002;141:752-4 (Editorial)

Infant, low birth weight
Doxapram and neurodevelopmental outcome (Finer and Barrington) (Letter); (Sreenan et al) (Reply). 2002;141:296-7
Early treatment with erythropoietin β ameliorates anemia and reduces transfusion requirements in infants with birth weights below 1000 g (Maier et al). 2002;141:8-15
Erythromycin in ELBW infants (Shiima et al). 2002;141:297-8 (Letter)
Erythropoietin treatment in extremely low birth weight infants: blood in versus blood out (Ohls). 2002;141:3-6 (Editorial)
Minimal ventilation to prevent bronchopulmonary dysplasia in extremely-low-birth-weight infants (Carlo et al).

2002;141:370-5
Relation of sleep state to hypoxemic episodes in ventilated extremely-low-birth-weight infants (Lehtonen et al). 2002;141:363-9

Infant, newborn
A breast-feeding assessment score to evaluate the risk for cessation of breast-feeding by 7 to 10 days of age (Hall et al). 2002;141:659-64
Fetal nutrition and insulin sensitivity: the genetic and environmental aspects of "thrift" (Rosenbloom). 2002;141:459-62 (Editorial)
The impact of legislation and secular trends on newborn length of stay for Medicaid infants in Ohio (Kotagal et al). 2002;141:392-7
Intrauterine growth restriction and postnatal steroid treatment effects on insulin sensitivity in preterm neonates (Leipälä et al). 2002;141:472-6
Medical progress: the newborn infant: an interpretive review (Hack). 2002;141:836 (50 years ago)
Neonatal lung injury and "new BPD": need for a new terminology (Makhoul). 2002;141:150 (Letter)
Pre-auricular tags and pits in the newborn: the role of renal ultrasonography (Kugelman et al). 2002;141:388-91
Thrombus in the left ventricle of a newborn (de Godoy et al). 2002;141:141 (Insights)

Infant, newborn, diseases
Efficacy of albuterol inhalation in treatment of hyperkalemia in premature neonates (Singh et al). 2002;141:16-20
Employing the nasal potential difference as a diagnostic test for cystic fibrosis in neonates: potential pitfalls (Gaillard et al). 2002;141:295-6 (Letter)
Gingival mass in a newborn infant diagnosed in utero (Kovacs et al). 2002;141:837 (Insights)
Hyperhomocysteinemia as risk factor for ischemic and hemorrhagic stroke in newborn infants (Hogeveen et al). 2002;141:429-31 (CLO)
The incidence and characteristics of neonatal irreversible lung dysplasia (Cassidy et al). 2002;141:426-8 (CLO)
Infection due to extended-spectrum β-lactamase-producing *Salmonella enterica* subsp. *enterica* serotype Infantis in a neonatal unit (Pessoa-Silva et al). 2002;141:381-7
Lethal neonatal and severe late infantile forms of carnitine palmitoyltransferase II deficiency associated with compound heterozygosity for different protein truncation mutations (Vladutiu et al). 2002;141:734-6 (CLO)
Neonatal diabetes mellitus: chromosomal analysis in transient and permanent cases (Metz et al). 2002;141:483-9
A novel hypothesis on the pathophysiology of neonatal jaundice (Verkade). 2002;141:594-5 (Letter)
Primary acalvaria in a term newborn (Raupp et al). 2002;141:593 (Insights)
Staphylococcus aureus infections in the newborn infant (Stoll). 2002;141:658 (50 years ago)
Understanding neonatal diabetes mellitus (Shield). 2002;141:462-3 (Editorial)

Infant, premature
Acute gangrenous appendicitis in a premature infant (Long and Vincour). 2002;141:537 (50 years ago)
Anemia of the premature infant: a two year study of the response to iron medication (Ohls). 2002;141:335 (50 years ago)
Development of airway function in infancy after preterm delivery (Hoo et al). 2002;141:652-8
Enhanced weight gain in preterm infants receiving lactase-treated feeds: a randomized, double-blind, controlled trial (Erasmus et al). 2002;141:532-7
Fetal nutrition and insulin sensitivity: the genetic and environmental aspects of "thrift" (Rosenbloom). 2002;141:459-62 (Editorial)
Influence of nasogastric tubes on gastroesophageal reflux in preterm infants: a multiple intraluminal impedance study (Peter et al). 2002;141:277-9 (CLO)
Intrauterine growth restriction and postnatal steroid treatment effects on insulin sensitivity in preterm neonates (Leipälä et al). 2002;141:472-6
Medical progress: the newborn infant: an interpretive review (Hack). 2002;141:836 (50 years ago)
Oral stimulation accelerates the transition from tube to oral feeding in preterm infants (Fucile et al). 2002;141:230-6. Correction 2002;141:743
Paraffin-tipped polyethylene tubing for feeding of premature babies, infants, and children (Lemons). 2002;141:190 (50 years ago)
Polyethylene tube feeding in premature infants (Lemons). 2002;141:190 (50 years ago)

Infant, premature, diseases
Congenital hypertrophic pyloric stenosis in a small premature infant (Long). 2002;141:476 (50 years ago)
Efficacy of albuterol inhalation in treatment of hyperkalemia in premature neonates (Singh et al). 2002;141:16-20

Infant, small for gestational age
Increased adrenocortical and adrenomedullary hormonal activity in 12-year-old children born small for gestational age (Tenhola et al). 2002;141:477-82
Low birth weight for gestational age and subsequent male gonadal function (Cicognani et al). 2002;141:376-80

Infant care
Physiologic studies on swaddling: an ancient child care practice, which may promote the supine position for infant sleep (Gerard et al). 2002;141:398-404

Infant food
Allergy to extensively hydrolyzed cow's milk proteins in infants: safety and duration of amino acid–based formula (de Boissieu and Dupont). 2002;141:271-3 (CLO)

Infant mortality
Cardiac pathology in sudden unexpected infant death (Dancea et al). 2002;141:336-42
Unexpected infant death: occult cardiac disease and sudden infant death syndrome—how much of an overlap is there? (Byard). 2002;141:303-5 (Editorial)

Infection
Infection due to extended-spectrum β-lactamase-producing *Salmonella enterica* subsp. *enterica* serotype Infantis in a neonatal unit (Pessoa-Silva et al). 2002;141:381-7
Preventing *Burkholderia cepacia* complex infection in cystic fibrosis: is there a middle ground? (LiPuma). 2002;141:467-9 (Editorial)
Pseudomonas infections in infants and children (O'Connor). 2002;141:664 (50 years ago)
Risk factors for *Burkholderia cepacia* complex colonization and infection among patients with cystic fibrosis (Walsh et al). 2002;141:512-7
Staphylococcus aureus infections in the newborn infant (Stoll). 2002;141:658 (50 years ago)

Inflammation
Hemostatic and inflammatory markers in obese youths: effects of exercise and adiposity (Barbeau et al). 2002;141:415-20
Induced sputum inflammatory measures correlate with lung function in children with cystic fibrosis (Sagel et al). 2002;141:811-7

Infrared rays
Limited accuracy and reliability of infrared axillary and aural thermometers in a pediatric outpatient population (Jean-Mary et al). 2002;141:671-6

Infusions, intravenous
The metabolic response to intravenous medium-chain triglycerides in infants after surgery (Donnell et al). 2002;141:689-94

Inhaled administration; *see* Administration, inhalation

Inner city population; *see* Urban population
Insulin
Fetal nutrition and insulin sensitivity: the genetic and environmental aspects of "thrift" (Rosenbloom). 2002;141:459-62 (Editorial)
Intrauterine growth restriction and postnatal steroid treatment effects on insulin sensitivity in preterm neonates (Leipälä et al). 2002;141:472-6
Insulin infusion systems
Insulin pump therapy in toddlers and preschool children with type 1 diabetes mellitus (Litton et al). 2002;141:490-5
Insulin-like growth factor-1
Is insulin-like growth factor-1 monitoring useful in assessing the response to growth hormone of growth hormone-deficient children? (Lanes and Jakubowicz). 2002;141:606-10
Titration of growth hormone dose using insulin-like growth factor-1 measurements: is it feasible in children? (Bercu). 2002;141:601-3 (Editorial)
Insulin resistance
Diabetes mellitus: type I or type 2? The accelerator hypothesis (Wilkin). 2002;141:449-50 (Letter)
Internship and residency
Promoting the use of evidence-based medicine in pediatrics (Frohna and Park). 2002;141:599-600
A training program for pediatric residents in child development and guidance (Felice). 2002;141:404 (50 years ago)
Intraspinal tumors; *see* Spinal neoplasms
Intrauterine growth restriction; *see* Fetal growth retardation
Intubation, gastrointestinal
Influence of nasogastric tubes on gastroesophageal reflux in preterm infants: a multiple intraluminal impedance study (Peter et al). 2002;141:277-9 (CLO)
Iodine
Time course to hypothyroidism after fixed-dose radioablation therapy of Graves' disease in children (Nebesio et al). 2002;141:99-103
Iron
Anemia of the premature infant: a two year study of the response to iron medication (Ohls). 2002;141:335 (50 years ago)
How much iron to supplement and when (Aziz et al) (Letter); (Domellöf et al) (Reply). 2002;141:146-7
Iron status at 9 months of infants with low iron stores at birth (Georgieff et al). 2002;141:405-9
Primary acalvaria in a term newborn (Raupp et al). 2002;141:593 (Insights)
Ischemia
Hyperhomocysteinemia as risk factor for ischemic and hemorrhagic stroke in newborn infants (Hogeveen et al). 2002;141:429-31 (CLO)
Prediction of outcome after hypoxic-ischemic encephalopathy: a prospective clinical and electrophysiologic study (Mandel et al). 2002;141:45-50
Isomerism
Gastrointestinal abnormalities in patients with right isomerism (Piecuch) (Letter); (Wu) (Reply). 2002;141:595-6

J

Jaundice, neonatal
Kernicterus parents' group (Sheridan). 2002;141:597 (Letter)
A novel hypothesis on the pathophysiology of neonatal jaundice (Verkade). 2002;141:594-5 (Letter)
Joint instability
Joint hypermobility is more common in children with chronic fatigue syndrome than in healthy controls (Barron et al). 2002;141:421-5

K

Kasai operation; *see* Enterostomy
Kawasaki disease; *see* Mucocutaneous lymph node syndrome
Kernicterus
Kernicterus parents' group (Sheridan). 2002;141:597 (Letter)
Kidney, abnormalities
Pre-auricular tags and pits in the newborn: the role of renal ultrasonography (Kugelman et al). 2002;141:388-91
Results of systematic voiding cystourethrography in infants with antenatally diagnosed renal pelvis dilation (Ismaili et al). 2002;141:21-4
Kidney calculi
Antibiotic treatment and renal stone formation in cystic fibrosis (Alon) (Letter); (Böhles) (Reply). 2002;141:598
Kidney diseases
The effects of magnesium sulfate on renal function in children with acute glomerulonephritis (Welch). 2002;141:728 (50 years ago)
The nephrotic syndrome in children: I. Clinical response to nitrogen mustard therapy (Stapleton). 2002;141:733 (50 years ago)
Kidney failure, chronic
Cardiovascular mortality in children and young adults with end-stage kidney disease (Parekh et al). 2002;141:191-7
Effectiveness of growth hormone treatment in short children with chronic renal failure (Mehls et al) (Letter); (Craig et al) (Reply). 2002;141:147-50
Pediatric end-stage renal disease: heart as a target (Mitsnefes). 2002;141:162-4 (Editorial)
Kinetics
Efficacy, tolerability, and kinetics of lamotrigine in infants (Mikati et al). 2002;141:31-5

L

Lactases; *see* Beta-galactosidase
Lamotrigine
Efficacy, tolerability, and kinetics of lamotrigine in infants (Mikati et al). 2002;141:31-5
Langerhans cell histiocytosis; *see* Histiocytosis, Langerhans cell
Latin Americans
Parental history and early-onset type 2 diabetes in African Americans and Latinos in Chicago (Onyemere and Lipton). 2002;141:825-9
Left atrium; *see* Heart atrium
Left ventricle; *see* Heart ventricle
Legislation
The impact of legislation and secular trends on newborn length of stay for Medicaid infants in Ohio (Kotagal et al). 2002;141:392-7
Legislature; *see* Government
Length of stay
The impact of legislation and secular trends on newborn length of stay for Medicaid infants in Ohio (Kotagal et al). 2002;141:392-7
Letters
Antibiotic treatment and renal stone formation in cystic fibrosis (Alon) (Letter); (Böhles) (Reply). 2002;141:598
Aplastic anemia in Nijmegen breakage syndrome (Pasic). 2002;141:742 (Letter)
Biliary atresia, the Kasai operation, and the chance of success (Badía et al). 2002;141:295-6 (Letter)
Diabetes mellitus: type I or type 2? The accelerator hypothesis (Wilkin). 2002;141:449-50 (Letter)
Dornase alfa in young patients with cystic fibrosis (Carter) (Letter); (Quan) (Reply). 2002;141:838-9

Doxapram and neurodevelopmental outcome (Finer and Barrington) (Letter); (Sreenan et al) (Reply). 2002;141:296-7
Effectiveness of growth hormone treatment in short children with chronic renal failure (Mehls et al) (Letter); (Craig et al) (Reply). 2002;141:147-50
Employing the nasal potential difference as a diagnostic test for cystic fibrosis in neonates: potential pitfalls (Gaillard et al). 2002;141:295-6 (Letter)
Erythromycin in ELBW infants (Shiima et al). 2002;141:297-8 (Letter)
Gastrointestinal abnormalities in patients with right isomerism (Piecuch) (Letter); (Wu) (Reply). 2002;141:595-6
How much iron to supplement and when (Aziz et al) (Letter); (Domellöf et al) (Reply). 2002;141:146-7
Kernicterus parents' group (Sheridan). 2002;141:597 (Letter)
Microcephaly and fetal alcohol syndrome (Hanley) (Letter); (Vargas et al) (Reply). 2002;141:449
Munchausen's syndrome by proxy web-mediated in a child with factitious hyperglycemia (Vanelli). 2002;141:839 (Letter)
Neonatal lung injury and "new BPD": need for a new terminology (Makhoul). 2002;141:150 (Letter)
A new approach to delivering cold, moist air to children with cough or wheezing: open the freezer door (Fisher). 2002;141:596-7 (Letter)
A novel hypothesis on the pathophysiology of neonatal jaundice (Verkade). 2002;141:594-5 (Letter)
Optimizing immunization—going beyond parent reminders (Kwee). 2002;141:296 (Letter)
Stroke prevention trial in sickle cell anemia: comments on effects of chronic transfusion on pain (Gates et al) (Letter); (Miller et al) (Reply). 2002;141:742-3
Thyroid disease in children with 22q11.2 deletion syndrome (Preece and Smith). 2002;141:297 (Letter)
VCUG timing (Alon) (Letter); (Mahant et al) (Reply). 2002;141:146

Leukemia, lymphocytic, acute, L1
Altered bone mineral density and body composition, and increased fracture risk in childhood acute lymphoblastic leukemia (van der Sluis et al). 2002;141:204-10

Lice
An observer-blinded study of 1% permethrin creme rinse with and without adjunctive combing in patients with head lice (Meinking et al). 2002;141:665-70

Lipase
Persistent hyperlipasemia caused by macrolipase in an adolescent (Keating and Lowe). 2002;141:129-31 (CLO)

Lipids
Effect of an organized lipid matrix on lipid absorption and clinical outcomes in patients with cystic fibrosis (Lepage et al). 2002;141:178-85
Essential fatty acid deficiency and nutritional supplementation in cystic fibrosis (Lloyd-Still). 2002;141:157-9 (Editorial)

Literature
Comments on current literature: tuberculosis (Anderson). 2002;141:197 (50 years ago)

Liver cirrhosis
Case 3: hepatic cirrhosis (McLin). 2002;141:489 (50 years ago)

Liver diseases
Biliary atresia, the Kasai operation, and the chance of success (Badía et al). 2002;141:295-6 (Letter)
HLA in Egyptian children with biliary atresia (A-Kader et al). 2002;141:432-4 (CLO)
Tauroursodeoxycholic acid (TUDCA) in the prevention of total parenteral nutrition-associated liver disease (Heubi et al). 2002;141:237-42

Liver neoplasms
Primary carcinoma of the liver in a boy aged 20 months (Buchino). 2002;141:763 (50 years ago)

Lobbying
Pediatrics and the legislature: suggestions for lobbying your legislature (Maddy and Cook). 2002;141:747-8

Local anesthesia; *see* Anesthesia, local

Low birth weight for gestational age infant; *see* Infant, small for gestational age

Low birth weight infant; *see* Infant, low birth weight

Lung
Macronutrient intake in anorexia nervosa: the National Heart, Lung, and Blood Institute Growth and Health Study (Affenito et al). 2002;141:701-5
Neonatal lung injury and "new BPD": need for a new terminology (Makhoul). 2002;141:150 (Letter)

Lung diseases
The incidence and characteristics of neonatal irreversible lung dysplasia (Cassidy et al). 2002;141:426-8 (CLO)
Lobar emphysema in infants and children (deMello). 2002;141:586 (50 years ago)

Lymphoma
Aplastic anemia in Nijmegen breakage syndrome (Pasic). 2002;141:742 (Letter)

M

Macronutrients; *see* Nutrition

Magnesium sulfate
The effects of magnesium sulfate on renal function in children with acute glomerulonephritis (Welch). 2002;141:728 (50 years ago)

Mass screening
Application of the fetal alcohol syndrome facial photographic screening tool in a foster care population (Astley et al). 2002;141:712-7 (CLO)
Effectiveness of screening examinations to detect unrecognized exercise-induced bronchoconstriction (Hallstrand et al). 2002;141:343-9
Screening for exercise-induced asthma (Bokulic). 2002;141:306-8 (Editorial)

Mass spectrometry; *see* Spectrum analysis, mass

Maternal behavior
Alcohol dehydrogenase 2 genotypes, maternal alcohol use, and infant outcome (Stoler et al). 2002;141:780-5
Is genotype important in predicting the fetal alcohol syndrome? (Chambers and Jones). 2002;141:751-2 (Editorial)

Mechlorethamine
The nephrotic syndrome in children: I. Clinical response to nitrogen mustard therapy (Stapleton). 2002;141:733 (50 years ago)

Mediastinal emphysema
Pneumomediastinum and subcutaneous emphysema in an 18-month-old child (Gesundheit et al). 2002;141:116-20 (Grand rounds)

Medicaid
The impact of legislation and secular trends on newborn length of stay for Medicaid infants in Ohio (Kotagal et al). 2002;141:392-7

Menarche
Central precocious puberty in girls with Williams syndrome (Partsch et al). 2002;141:441-4 (CLO)
The interval between menarche and age of first sexual intercourse as a risk factor for subsequent HPV infection in adolescent and young adult women (Kahn et al). 2002;141:718-23 (CLO)

Meningocele
Semitransparent meningocele at the occipital region (Muroi et al). 2002;141:294 (Insights)

Mental disorders
Doxapram and neurodevelopmental outcome (Finer and Barrington) (Letter); (Sreenan et al) (Reply). 2002;141:296-7
Metabolism
Bones benefit from better biochemical control in type 1 glycogen storage disease (Wolfsdorf). 2002;141:308-10 (Editorial)
Low bone mass in glycogen storage disease type 1 is associated with reduced muscle force and poor metabolic control (Schwahn et al). 2002;141:350-6
The metabolic response to intravenous medium-chain triglycerides in infants after surgery (Donnell et al). 2002;141:689-94
Methemoglobinemia
Methemoglobinemia in an infant receiving nitric oxide after the use of eutectic mixture of local anesthetic (Sinisterra et al). 2002;141:285-6 (CLO)
Methylphenidate
Prevalence of methylphenidate use and change over a two-year period: a nationwide study of 2- to 11-year-old Canadian children (Romano et al). 2002;141:71-5
Microcephaly
Microcephaly and fetal alcohol syndrome (Hanley) (Letter); (Vargas et al) (Reply). 2002;141:449
Milk hypersensitivity
Allergy to extensively hydrolyzed cow's milk proteins in infants: safety and duration of amino acid–based formula (de Boissieu and Dupont). 2002;141:271-3 (CLO)
Morbidity
Chronic recurrent multifocal osteomyelitis: clinical outcomes after more than five years of follow-up (Huber et al). 2002;141:198-203
Lethal neonatal and severe late infantile forms of carnitine palmitoyltransferase II deficiency associated with compound heterozygosity for different protein truncation mutations (Vladutiu et al). 2002;141:734-6 (CLO)
No pains, many gains (Fernhoff). 2002;141:470-1 (Editorial)
Survival in familial dysautonomia: impact of early intervention (Axelrod et al). 2002;141:518-23
Mortality
Cardiovascular mortality in children and young adults with end-stage kidney disease (Parekh et al). 2002;141:191-7
Pediatric end-stage renal disease: heart as a target (Mitsnefes). 2002;141:162-4 (Editorial)
Mucocutaneous lymph node syndrome
Decreased nitric oxide production after intravenous immunoglobulin treatment in patients with Kawasaki disease (Wang et al). 2002;141:560-5
Munchausen's syndrome
Munchausen's syndrome by proxy web-mediated in a child with factitious hyperglycemia (Vanelli). 2002;141:839 (Letter)
Murmur, heart; *see* Heart murmurs
Muscles
Bones benefit from better biochemical control in type 1 glycogen storage disease (Wolfsdorf). 2002;141:308-10 (Editorial)
Low bone mass in glycogen storage disease type 1 is associated with reduced muscle force and poor metabolic control (Schwahn et al). 2002;141:350-6
Muscular dystrophy
Airway nitric oxide in Duchenne muscular dystrophy (Straub et al). 2002;141:132-4 (CLO)
Mutation
Lethal neonatal and severe late infantile forms of carnitine palmitoyltransferase II deficiency associated with compound heterozygosity for different protein truncation mutations (Vladutiu et al). 2002;141:734-6 (CLO)

N

Nails
Nailfold capillaroscopy in Henoch-Schönlein purpura: a follow-up study of 31 cases (Martino et al). 2002;141:145 (Insights)
Nasogastric tubes; *see* Intubation, gastrointestinal
National Cooperative Inner-City Asthma Study
Increased asthma symptoms and healthcare utilization during the fall and winter seasons in children with asthma living in the inner city: opportunity for school-based intervention (Guilbert and Morgan). 2002;141:604-5 (Editorial)
Understanding the seasonal pattern of childhood asthma: results from the National Cooperative Inner-City Asthma Study (NCICAS) (Gergen et al). 2002;141:631-6
National Heart, Lung, and Blood Institute Growth and Health Study
Macronutrient intake in anorexia nervosa: the National Heart, Lung, and Blood Institute Growth and Health Study (Affenito et al). 2002;141:701-5
Nebulizers and vaporizers
A randomized, controlled trial of the effectiveness of nebulized therapy with epinephrine compared with albuterol and saline in infants hospitalized for acute viral bronchiolitis (Patel et al). 2002;141:818-24
Neck
Postural and righting responses in children (Accardo). 2002;141:547 (50 years ago)
Necrobiosis lipoidica
Recurrent necrobiosis lipoidica diabeticorum associated with venous insufficiency in an adolescent with poorly controlled type 2 diabetes mellitus (Yigit and Estrada). 2002;141:280-2 (CLO)
Neonatal jaundice; *see* Jaundice, neonatal
Neonatal screening
Newborn screening with tandem mass spectrometry: examining its cost-effectiveness in the Wisconsin Newborn Screening Panel (Insinga et al). 2002;141:524-31
Neonate; *see* Infant, newborn
Nephrotic syndrome
The nephrotic syndrome in children: I. Clinical response to nitrogen mustard therapy (Stapleton). 2002;141:733 (50 years ago)
Neurodevelopmental outcome; *see* Child development
Neutropenia
Cardiolipin deficiency in X-linked cardioskeletal myopathy and neutropenia (Barth syndrome, MIM 302060): a study in cultured skin fibroblasts (Valianpour et al). 2002;141:729-33 (CLO)
Newborn infant; *see* Infant, newborn
Nijmegen breakage syndrome
Aplastic anemia in Nijmegen breakage syndrome (Pasic). 2002;141:742 (Letter)
Nitric oxide
Airway nitric oxide in Duchenne muscular dystrophy (Straub et al). 2002;141:132-4 (CLO)
Decreased nitric oxide production after intravenous immunoglobulin treatment in patients with Kawasaki disease (Wang et al). 2002;141:560-5
Inhaled prostacyclin for term infants with persistent pulmonary hypertension refractory to inhaled nitric oxide (Kelly et al). 2002;141:830-2(CLO)
Methemoglobinemia in an infant receiving nitric oxide after the use of eutectic mixture of local anesthetic (Sinisterra et al). 2002;141:285-6 (CLO)
Nitrogen mustard; *see* Mechlorethamine
Nomenclature
Neonatal lung injury and "new BPD": need for a new terminology (Makhoul). 2002;141:150 (Letter)

Nose
Employing the nasal potential difference as a diagnostic test for cystic fibrosis in neonates: potential pitfalls (Gaillard et al). 2002;141:295-6 (Letter)
Nutrition
Effect of an organized lipid matrix on lipid absorption and clinical outcomes in patients with cystic fibrosis (Lepage et al). 2002;141:178-85
Essential fatty acid deficiency and nutritional supplementation in cystic fibrosis (Lloyd-Still). 2002;141:157-9 (Editorial)
Fetal nutrition and insulin sensitivity: the genetic and environmental aspects of "thrift" (Rosenbloom). 2002;141:459-62 (Editorial)
Intrauterine growth restriction and postnatal steroid treatment effects on insulin sensitivity in preterm neonates (Leipälä et al). 2002;141:472-6
The most essential nutrient: defining the adequate intake of water (Manz et al). 2002;141:587-92 (CLO)
Relationship of nutritional status to health and societal participation in children with cerebral palsy (Samson-Fang et al). 2002;141:637-43

O

Obesity
The aging of the cardiovascular system: when should children be treated like adults? (Gidding). 2002;141:159-61 (Editorial)
Breast-feeding and obesity (Gillman). 2002;141:749-50 (Editorial)
Disease severity at time of referral for pediatric failure to thrive and obesity: time for a paradigm shift? (Miller et al). 2002;141:121-4 (CLO)
Hemostatic and inflammatory markers in obese youths: effects of exercise and adiposity (Barbeau et al). 2002;141:415-20
Is failure to thrive a greater concern than obesity? (Dietz and Mei). 2002;141:6-7 (Editorial)
Left atrial size in children with hypertension: the influence of obesity, blood pressure, and left ventricular mass (Daniels et al). 2002;141:186-90
Overweight and obesity in 6- to 14-year-old Czech children in 1991: protective effect of breast-feeding (Toschke et al). 2002;141:764-9
Oculo-auriculo-vertebral sequence; *see* Goldenhar syndrome
Oral rehydration therapy; *see* Fluid therapy
Osteomyelitis
Chronic recurrent multifocal osteomyelitis: clinical outcomes after more than five years of follow-up (Huber et al). 2002;141:198-203
Osteomyelitis due to *Salmonella* infection (Long). 2002;141:276 (50 years ago)
Osteopenia; *see* Bone diseases, metabolic
Otitis media
Prevention of otitis media: role of pneumococcal conjugate vaccines in reducing incidence and antibiotic resistance (Jacobs). 2002;141:287-93 (Grand rounds)
Outpatients
Limited accuracy and reliability of infrared axillary and aural thermometers in a pediatric outpatient population (Jean-Mary et al). 2002;141:671-6
Ovary
Premature pubarche in girls is associated with functional adrenal but not ovarian hyperandrogenism (Mathew et al). 2002;141:91-8
Oxygen
Postmortem screening for fatty acid oxidation disorders by analysis of Guthrie cards with tandem mass spectrometry in sudden unexpected death in infancy (Wilcox et al). 2002;141:833-6 (CLO)

P

Pain
Physical therapy and cognitive-behavioral treatment for complex regional pain syndromes (Lee et al). 2002;141:135-40 (CLO)
Recurrent pain, emotional distress, and health service use in childhood (Campo et al). 2002;141:76-83
Stroke prevention trial in sickle cell anemia: comments on effects of chronic transfusion on pain (Gates et al) (Letter); (Miller et al) (Reply). 2002;141:742-3
Pancreatic diseases
How useful is fecal pancreatic elastase 1 as a marker of exocrine pancreatic disease? (Beharry et al). 2002;141:84-90
Serum pancreatic enzymes define the pancreatic phenotype in patients with Shwachman-Diamond syndrome (Ip et al). 2002;141:259-65
Shwachman-Diamond syndrome (Mack). 2002;141:164-5 (Editorial)
Shwachman-Diamond syndrome: report from an international conference (Rothbaum et al). 2002;141:266-70 (Grand rounds)
Papillomaviruses
The interval between menarche and age of first sexual intercourse as a risk factor for subsequent HPV infection in adolescent and young adult women (Kahn et al). 2002;141:718-23 (CLO)
Paraffin
Paraffin-tipped polyethylene tubing for feeding of premature babies, infants, and children (Lemons). 2002;141:190 (50 years ago)
Parenteral nutrition, total
Tauroursodeoxycholic acid (TUDCA) in the prevention of total parenteral nutrition-associated liver disease (Heubi et al). 2002;141:237-42
Parents
Optimizing immunization—going beyond parent reminders (Kwee). 2002;141:296 (Letter)
Parental history and early-onset type 2 diabetes in African Americans and Latinos in Chicago (Onyemere and Lipton). 2002;141:825-9
Parents of Infants and Children with Kernicterus
Kernicterus parents' group (Sheridan). 2002;141:597 (Letter)
Patient education
Optimizing immunization—going beyond parent reminders (Kwee). 2002;141:296 (Letter)
Patient participation
The ethics of paying for children's participation in research (Wendler et al). 2002;141:166-71 (Commentary)
Paying for children to participate in research: a slippery slope or an enlightened stairway? (Fernhoff). 2002;141:153-4 (Editorial)
Pediatrics
Pediatric practice and education in the genomic/postgenomic era (Chesney et al). 2002;141:453-8
Pediatrics and the legislature: suggestions for lobbying your legislature (Maddy and Cook). 2002;141:747-8
Promoting the use of evidence-based medicine in pediatrics (Frohna and Park). 2002;141:599-600
PEG 3350; *see* Polyethylene glycols
Pelvis
Results of systematic voiding cystourethrography in infants with antenatally diagnosed renal pelvis dilation (Ismaili et al). 2002;141:21-4
Pericardial effusion
Umbilical venous line displacement as a consequence of abdominal girth variation (Salvadori et al). 2002;141:737 (Insights)
Permethrin
An observer-blinded study of 1% permethrin creme rinse with

and without adjunctive combing in patients with head lice (Meinking et al). 2002;141:665-70

Persistent fetal circulation syndrome
Inhaled prostacyclin for term infants with persistent pulmonary hypertension refractory to inhaled nitric oxide (Kelly et al). 2002;141:830-2 (CLO)

PET scan; *see* Tomography, emission-computed

Pets; *see* Animals, domestic

Phenotype
Serum pancreatic enzymes define the pancreatic phenotype in patients with Shwachman-Diamond syndrome (Ip et al). 2002;141:259-65
Shwachman-Diamond syndrome (Mack). 2002;141:164-5 (Editorial)
Shwachman-Diamond syndrome: report from an international conference (Rothbaum et al). 2002;141:266-70 (Grand rounds)

Phenylketonuria
Protein insufficiency and linear growth restriction in phenylketonuria (Arnold et al). 2002;141:243-6

Photography
Application of the fetal alcohol syndrome facial photographic screening tool in a foster care population (Astley et al). 2002;141:712-7 (CLO)

Physical education and training
Gains in hip bone mass from high-impact training are maintained: a randomized controlled trial in children (Fuchs and Snow). 2002;141:357-62

Physical therapy
Physical therapy and cognitive-behavioral treatment for complex regional pain syndromes (Lee et al). 2002;141:135-40 (CLO)

Physicians
Why maintenance of certification? (Ham and Stockman). 2002;141:300
Why physicians are certified by boards (Chesney). 2002;141:299

Physiology
Physiologic regulators of bone turnover in young women with anorexia nervosa (Gordon et al). 2002;141:64-70
Physiologic studies on swaddling: an ancient child care practice, which may promote the supine position for infant sleep (Gerard et al). 2002;141:398-404

Pneumococcal vaccines; *see* Vaccines

Pneumomediastinum; *see* Mediastinal emphysema

Poliomyelitis
Intraspinal tumors in children resembling anterior poliomyelitis: report of three cases (Buchino). 2002;141:369 (50 years ago)

Polyethylene glycols
Dose response of PEG 3350 for the treatment of childhood fecal impaction (Youssef et al). 2002;141:410-4

Polyethylenes
Paraffin-tipped polyethylene tubing for feeding of premature babies, infants, and children (Lemons). 2002;141:190 (50 years ago)
Polyethylene tube feeding in premature infants (Lemons). 2002;141:190 (50 years ago)

Polyhydramnios
Polyhydramnios: a predictor of severe growth impairment in achondroplasia (Latini et al). 2002;141:274-6 (CLO)

Postmortem screening; *see* Autopsy

Postoperative period
The metabolic response to intravenous medium-chain triglycerides in infants after surgery (Donnell et al). 2002;141:689-94

Postthrombotic syndrome; *see* Thrombosis

Posture
Postural and righting responses in children (Accardo). 2002;141:547 (50 years ago)

Pre-auricular tags; *see* Ear, abnormalities

Premature infant; *see* Infant, premature

Prenatal care
The impact of early cystic fibrosis diagnosis on pulmonary function in children (Wang et al). 2002;141:804-10
Medical progress: the newborn infant: an interpretive review (Hack). 2002;141:836 (50 years ago)
Prenatal screening for cystic fibrosis: where are we now? (Farrell and Fost). 2002;141:758 (Invited commentary)

Prenatal diagnosis
Gingival mass in a newborn infant diagnosed in utero (Kovacs et al). 2002;141:837 (Insights)
The impact of early cystic fibrosis diagnosis on pulmonary function in children (Wang et al). 2002;141:804-10
A population-based study on the incidence and possible pre- and perinatal etiologic risk factors of biliary atresia (Fischler et al). 2002;141:217-22
Prenatal screening for cystic fibrosis: where are we now? (Farrell and Fost). 2002;141:758-63 (Invited commentary)

Preschool child; *see* Child, preschool

Preterm infant; *see* Infant, premature

Prevalence
Prevalence and correlates of household exposures to tobacco smoke and pets in children with asthma (Wamboldt et al). 2002;141:109-15
Prevalence of methylphenidate use and change over a two-year period: a nationwide study of 2- to 11-year-old Canadian children (Romano et al). 2002;141:71-5

Primary acalvaria; *see* Skull, abnormalities

Propranolol
The diagnostic evaluation of children with cyclic vomiting: a cost-effectiveness assessment (Olson and Li). 2002;141:724-8 (CLO)

Prospective P^2C^2 HIV Study
Incidence of cardiac abnormalities in children with human immunodeficiency virus infection: the Prospective P^2C^2 HIV Study (Starc et al). 2002;141:327-35

Prostacyclin; *see* Epoprostenol

Protein deficiency
Protein insufficiency and linear growth restriction in phenylketonuria (Arnold et al). 2002;141:243-6

Proteins
Allergy to extensively hydrolyzed cow's milk proteins in infants: safety and duration of amino acid–based formula (de Boissieu and Dupont). 2002;141:271-3 (CLO)
Lethal neonatal and severe late infantile forms of carnitine palmitoyltransferase II deficiency associated with compound heterozygosity for different protein truncation mutations (Vladutiu et al). 2002;141:734-6 (CLO)

Pseudomonas
Pseudomonas infections in infants and children (O'Connor). 2002;141:664 (50 years ago)

Psychological tests
The psychological evaluation of children with cerebral palsy and its implications in treatment (Accardo). 2002;141:651 (50 years ago)

Pubarche; *see* Hair

Puberty, precocious
Central precocious puberty in girls with Williams syndrome (Partsch et al). 2002;141:441-4 (CLO)
Premature pubarche in girls is associated with functional adrenal but not ovarian hyperandrogenism (Mathew et al). 2002;141:91-8

Pulmonary function; *see* Respiratory function tests

Purpura, Schönlein-Henoch
Nailfold capillaroscopy in Henoch-Schönlein purpura: a follow-up study of 31 cases (Martino et al). 2002;141:145 (Insights)

Purpura, thrombocytopenic, idiopathic
Grading of hemorrhage in children with idiopathic thrombocytopenic purpura (Buchanan and Adix). 2002;141:683-8
Idiopathic thrombocytopenic purpura diagnosed during the second decade of life (Lowe and Buchanan). 2002;141:253-8
Pyloric stenosis
Congenital hypertrophic pyloric stenosis in a small premature infant (Long). 2002;141:476 (50 years ago)
Erythromycin in ELBW infants (Shiima et al). 2002;141:297-8 (Letter)

Q

QT interval; *see* Electrocardiography
QT wave; *see* Electrocardiography
Quadriplegia
Bisphosphonates to treat osteopenia in children with quadriplegic cerebral palsy: a randomized, placebo-controlled clinical trial (Henderson et al). 2002;141:644-51
Quality of life
Relationship of nutritional status to health and societal participation in children with cerebral palsy (Samson-Fang et al). 2002;141:637-43

R

Radioablation
Time course to hypothyroidism after fixed-dose radioablation therapy of Graves' disease in children (Nebesio et al). 2002;141:99-103
Randomized controlled trials
Pediatricians' attitudes toward randomized controlled trials involving children (Caldwell et al). 2002;141:798-803
Randomized trials and recruitment tribulations: rethinking the research enterprise (Wasserman). 2002;141:756-7 (Editorial)
Registries
Eosinophil-associated gastrointestinal disorders: a world-wide web based registry (Guajardo et al). 2002;141:576-81 (CLO)
Renal diseases; *see* Kidney diseases
Renal stones; *see* Kidney calculi
Research
The ethics of paying for children's participation in research (Wendler et al). 2002;141:166-71 (Commentary)
Paying for children to participate in research: a slippery slope or an enlightened stairway? (Fernhoff). 2002;141:153-4 (Editorial)
Pediatricians' attitudes toward randomized controlled trials involving children (Caldwell et al). 2002;141:798-803
Randomized trials and recruitment tribulations: rethinking the research enterprise (Wasserman). 2002;141:756-7 (Editorial)
Residency; *see* Internship and residency
Respiration
Development of airway function in infancy after preterm delivery (Hoo et al). 2002;141:652-8
Respiration, artificial
Minimal ventilation to prevent bronchopulmonary dysplasia in extremely-low-birth-weight infants (Carlo et al). 2002;141:370-5
Relation of sleep state to hypoxemic episodes in ventilated extremely-low-birth-weight infants (Lehtonen et al). 2002;141:363-9
Respiratory function tests
Dornase alfa in young patients with cystic fibrosis (Carter) (Letter); (Quan) (Reply). 2002;141:838-9
The impact of early cystic fibrosis diagnosis on pulmonary function in children (Wang et al). 2002;141:804-10
Induced sputum inflammatory measures correlate with lung function in children with cystic fibrosis (Sagel et al). 2002;141:811-7
Prenatal screening for cystic fibrosis: where are we now? (Farrell and Fost). 2002;141:758-63 (Invited commentary)
Respiratory sounds
A new approach to delivering cold, moist air to children with cough or wheezing: open the freezer door (Fisher). 2002;141:596-7 (Letter)
Rheumatic fever
The control of rheumatic fever recurrences with sulfadiazine and gantrisin (Long). 2002;141:375 (50 years ago)
Risk factors
Hyperhomocysteinemia as risk factor for ischemic and hemorrhagic stroke in newborn infants (Hogeveen et al). 2002;141:429-31 (CLO)
Infants of diabetic mothers are at increased risk for the oculo-auriculo-vertebral sequence: a case-based and case-control approach (Wang et al). 2002;141:611-7
The interval between menarche and age of first sexual intercourse as a risk factor for subsequent HPV infection in adolescent and young adult women (Kahn et al). 2002;141:718-23 (CLO)
A population-based study on the incidence and possible pre- and perinatal etiologic risk factors of biliary atresia (Fischler et al). 2002;141:217-22
Preventing *Burkholderia cepacia* complex infection in cystic fibrosis: is there a middle ground? (LiPuma). 2002;141:467-9 (Editorial)
Risk factors for *Burkholderia cepacia* complex colonization and infection among patients with cystic fibrosis (Walsh et al). 2002;141:512-7
RNA
Effect of combination antiretroviral therapy on cerebrospinal fluid HIV RNA, HIV resistance, and clinical manifestations of encephalopathy (McCoig et al). 2002;141:36-44

S

Safety
Allergy to extensively hydrolyzed cow's milk proteins in infants: safety and duration of amino acid–based formula (de Boissieu and Dupont). 2002;141:271-3 (CLO)
Saline; *see* Sodium chloride
***Salmonella* infections**
Infection due to extended-spectrum β-lactamase-producing *Salmonella enterica* subsp. *enterica* serotype Infantis in a neonatal unit (Pessoa-Silva et al). 2002;141:381-7
Osteomyelitis due to *Salmonella* infection (Long). 2002;141:276 (50 years ago)
Scalp
Cutaneous manifestations of hyper-IgE syndrome in infants and children (Chamlin et al). 2002;141:572-5 (CLO)
Schools
Increased asthma symptoms and healthcare utilization during the fall and winter seasons in children with asthma living in the inner city: opportunity for school-based intervention (Guilbert and Morgan). 2002;141:604-5 (Editorial)
Understanding the seasonal pattern of childhood asthma: results from the National Cooperative Inner-City Asthma Study (NCICAS) (Gergen et al). 2002;141:631-6
Screening; *see* Mass screening
Seasons
Increased asthma symptoms and healthcare utilization during the fall and winter seasons in children with asthma living in the inner city: opportunity for school-based intervention (Guilbert and Morgan). 2002;141:604-5 (Editorial)

Understanding the seasonal pattern of childhood asthma: results from the National Cooperative Inner-City Asthma Study (NCICAS) (Gergen et al). 2002;141:631-6

Seizures
Efficacy, tolerability, and kinetics of lamotrigine in infants (Mikati et al). 2002;141:31-5

Self assessment
Self-assessment of sexual maturity status in children with Crohn's disease (Schall et al). 2002;141:223-9

Serotyping
Infection due to extended-spectrum β-lactamase-producing *Salmonella enterica* subsp. *enterica* serotype Infantis in a neonatal unit (Pessoa-Silva et al). 2002;141:381-7

Severity of illness index
Development of a pediatric age- and disease-specific severity measure (Horn et al). 2002;141:496-503
Disease severity at time of referral for pediatric failure to thrive and obesity: time for a paradigm shift? (Miller et al). 2002;141:121-4 (CLO)
The relationship between severity of illness and outcomes in hospitalized pediatric patients (Green). 2002;141:463-5 (Editorial)

Sex maturation
Self-assessment of sexual maturity status in children with Crohn's disease (Schall et al). 2002;141:223-9

Sexual intercourse; *see* Coitus

Short children; *see* Growth disorders

Shwachman-Diamond syndrome
Serum pancreatic enzymes define the pancreatic phenotype in patients with Shwachman-Diamond syndrome (Ip et al). 2002;141:259-65
Shwachman-Diamond syndrome (Mack). 2002;141:164-5 (Editorial)
Shwachman-Diamond syndrome: report from an international conference (Rothbaum et al). 2002;141:266-70 (Grand rounds)

Sialotransferrin; *see* Transferrin

Sickle cell anemia; *see* Anemia, sickle cell

Skin
Cardiolipin deficiency in X-linked cardioskeletal myopathy and neutropenia (Barth syndrome, MIM 302060): a study in cultured skin fibroblasts (Valianpour et al). 2002;141:729-33 (CLO)
Cutaneous manifestations of hyper-IgE syndrome in infants and children (Chamlin et al). 2002;141:572-5 (CLO)
Treatment of two patients with Herlitz junctional epidermolysis bullosa with artificial skin bioequivalents (Jiang et al). 2002;141:553-9

Skull, abnormalities
Primary acalvaria in a term newborn (Raupp et al). 2002;141:593 (Insights)

Sleep
Physiologic studies on swaddling: an ancient child care practice, which may promote the supine position for infant sleep (Gerard et al). 2002;141:398-404
Relation of sleep state to hypoxemic episodes in ventilated extremely-low-birth-weight infants (Lehtonen et al). 2002;141:363-9

Small for gestational age infant; *see* Infant, small for gestational age

Social class
Optimizing immunization—going beyond parent reminders (Kwee). 2002;141:296 (Letter)

Socialization
Relationship of nutritional status to health and societal participation in children with cerebral palsy (Samson-Fang et al). 2002;141:637-43

Sodium
Home sodium monitoring in patients with diabetes insipidus (Green and Landt). 2002;141:618-24

Sodium chloride
A randomized, controlled trial of the effectiveness of nebulized therapy with epinephrine compared with albuterol and saline in infants hospitalized for acute viral bronchiolitis (Patel et al). 2002;141:818-24

Somatotropin
Effectiveness of growth hormone treatment in short children with chronic renal failure (Mehls et al) (Letter); (Craig et al) (Reply). 2002;141:147-50
Is insulin-like growth factor-1 monitoring useful in assessing the response to growth hormone of growth hormone-deficient children? (Lanes and Jakubowicz). 2002;141:606-10
Titration of growth hormone dose using insulin-like growth factor-1 measurements: is it feasible in children? (Bercu). 2002;141:601-3 (Editorial)

Spectrum analysis, mass
Newborn screening with tandem mass spectrometry: examining its cost-effectiveness in the Wisconsin Newborn Screening Panel (Insinga et al). 2002;141:524-31
Postmortem screening for fatty acid oxidation disorders by analysis of Guthrie cards with tandem mass spectrometry in sudden unexpected death in infancy (Wilcox et al). 2002;141:833-6 (CLO)

Spinal neoplasms
Intraspinal tumors in children resembling anterior poliomyelitis: report of three cases (Buchino). 2002;141:369 (50 years ago)

Sputum
Induced sputum inflammatory measures correlate with lung function in children with cystic fibrosis (Sagel et al). 2002;141:811-7

Standards
20 years of the American Board of Pediatrics: editorial comment (Stockman). 2002;141:630 (50 years ago)

Staphylococcus aureus
Staphylococcus aureus infections in the newborn infant (Stoll). 2002;141:658 (50 years ago)

Steroids
Fetal nutrition and insulin sensitivity: the genetic and environmental aspects of "thrift" (Rosenbloom). 2002;141:459-62 (Editorial)
Intrauterine growth restriction and postnatal steroid treatment effects on insulin sensitivity in preterm neonates (Leipälä et al). 2002;141:472-6

Stress, psychological
Recurrent pain, emotional distress, and health service use in childhood (Campo et al). 2002;141:76-83

Stroke; *see* Cerebrovascular disorders

Subcutaneous emphysema
Pneumomediastinum and subcutaneous emphysema in an 18-month-old child (Gesundheit et al). 2002;141:116-20 (Grand rounds)

Substance dependence
Addiction to the inhalation of gasoline fumes in a child (Scalzo). 2002;141:349 (50 years ago)

Sudden cardiac arrest; *see* Heart arrest

Sudden infant death
Cardiac pathology in sudden unexpected infant death (Dancea et al). 2002;141:336-42
Postmortem screening for fatty acid oxidation disorders by analysis of Guthrie cards with tandem mass spectrometry in sudden unexpected death in infancy (Wilcox et al). 2002;141:833-6 (CLO)
Unexpected infant death: occult cardiac disease and sudden infant death syndrome—how much of an overlap is there? (Byard). 2002;141:303-5 (Editorial)

Sufadiazine
The control of rheumatic fever recurrences with sulfadiazine and gantrisin (Long). 2002;141:375 (50 years ago)

Sulfisoxazole
The control of rheumatic fever recurrences with sulfadiazine and gantrisin (Long). 2002;141:375 (50 years ago)
Supine position
Physiologic studies on swaddling: an ancient child care practice, which may promote the supine position for infant sleep (Gerard et al). 2002;141:398-404
Surgery, operative
Biliary atresia, the Kasai operation, and the chance of success (Badía et al). 2002;141:295-6 (Letter)
Survival
Influence of congenital heart disease on survival in children with congenital diaphragmatic hernia (Cohen et al). 2002;141:25-30
No pains, many gains (Fernhoff). 2002;141:470-1 (Editorial)
Survival in familial dysautonomia: impact of early intervention (Axelrod et al). 2002;141:518-23
Swaddling; *see* Infant care
Swimming
Mechanism of sudden cardiac arrest while swimming in a child with the prolonged QT syndrome (Batra and Silka). 2002;141:283-4 (CLO)

T

Tauroursodeoxycholic acid; *see* Ursodeoxycholic acid
Terminology; *see* Nomenclature
Terrorism; *see* Violence
Tetanus antitoxin
The treatment of tetanus: ten consecutive cases with recovery (Long). 2002;141:229 (50 years ago)
Thalassemia
Hypocholesterolemia in children and adolescents with β-thalassemia intermedia (Hartman et al). 2002;141:543-7
Thermometers
Limited accuracy and reliability of infrared axillary and aural thermometers in a pediatric outpatient population (Jean-Mary et al). 2002;141:671-6
Thrombosis
The risk of postthrombotic syndrome in children with congenital heart disease (van Ommen et al). 2002;141:582-6 (CLO)
Thrombus in the left ventricle of a newborn (de Godoy et al). 2002;141:141 (Insights)
Thyroid diseases
Thyroid disease in children with 22q11.2 deletion syndrome (Preece and Smith). 2002;141:297 (Letter)
Thyroxine
Initial treatment dose of L-thyroxine in congenital hypothyroidism (Selva et al). 2002;141:786-92
Treatment of the infant with congenital hypothyroidism (Hopwood). 2002;141:752-4 (Editorial)
Time
Time course to hypothyroidism after fixed-dose radioablation therapy of Graves' disease in children (Nebesio et al). 2002;141:99-103
Titrimetry
Titration of growth hormone dose using insulin-like growth factor-1 measurements: is it feasible in children? (Bercu). 2002;141:601-3 (Editorial)
Tobacco
Prevalence and correlates of household exposures to tobacco smoke and pets in children with asthma (Wamboldt et al). 2002;141:109-15
Toddler; *see* Child, preschool
Tolerance, drug; *see* Drug tolerance
Tomography, emission-computed
Brain 18-FDG PET scan in central nervous system Langerhans cell histiocytosis (Calming et al). 2002;141:435-40 (CLO)
Tomography, x-ray computed
Low-density areas on high-resolution computed tomograms in chronic pediatric asthma (Pifferi et al). 2002;141:104-8
Total parenteral nutrition; *see* Parenteral nutrition, total
Toxins
Shiga toxin-producing *E coli*: two tests are better than one (Cohen). 2002;141:155-6 (Editorial)
Shiga toxin-producing *Escherichia coli* in children with diarrhea: a prospective point-of-care study (Klein et al). 2002;141:172-7
Tracheotomy
The treatment of tetanus: ten consecutive cases with recovery (Long). 2002;141:229 (50 years ago)
Training, medical; *see* Education, medical
Training, physical; *see* Physical education and training
Transferrin
Clinical and molecular features of congenital disorder of glycosylation in patients with type 1 sialotransferrin pattern and diverse ethnic origins (Enns et al). 2002;141:695-700
Transfusion, blood; *see* Blood transfusion
Triglycerides
The metabolic response to intravenous medium-chain triglycerides in infants after surgery (Donnell et al). 2002;141:689-94
Tube feeding; *see* Enteral nutrition
Tuberculosis
Comments on current literature: tuberculosis (Anderson). 2002;141:197 (50 years ago)
Type 1 diabetes; *see* Diabetes mellitus, insulin-dependent
Type 2 diabetes mellitus; *see* Diabetes mellitus, non-insulin-dependent

U

Ultrasonography
Pre-auricular tags and pits in the newborn: the role of renal ultrasonography (Kugelman et al). 2002;141:388-91
Umbilical veins
Umbilical venous line displacement as a consequence of abdominal girth variation (Salvadori et al). 2002;141:737 (Insights)
Urban population
Increased asthma symptoms and healthcare utilization during the fall and winter seasons in children with asthma living in the inner city: opportunity for school-based intervention (Guilbert and Morgan). 2002;141:604-5 (Editorial)
Understanding the seasonal pattern of childhood asthma: results from the National Cooperative Inner-City Asthma Study (NCICAS) (Gergen et al). 2002;141:631-6
Urethra, radiography
Results of systematic voiding cystourethrography in infants with antenatally diagnosed renal pelvis dilation (Ismaili et al). 2002;141:21-4
Urinary tract infections
Results of systematic voiding cystourethrography in infants with antenatally diagnosed renal pelvis dilation (Ismaili et al). 2002;141:21-4
VCUG timing (Alon) (Letter); (Mahant et al) (Reply). 2002;141:146
Ursodeoxycholic acid
Tauroursodeoxycholic acid (TUDCA) in the prevention of total parenteral nutrition-associated liver disease (Heubi et al). 2002;141:237-42

V

Vaccines
Prevention of otitis media: role of pneumococcal conjugate vaccines in reducing incidence and antibiotic resistance (Jacobs). 2002;141:287-93 (Grand rounds)
VCUG; *see* Diagnostic imaging
Venous insufficiency
Recurrent necrobiosis lipoidica diabeticorum associated with venous insufficiency in an adolescent with poorly controlled type 2 diabetes mellitus (Yigit and Estrada). 2002;141:280-2 (CLO)
Ventilation, mechanical; *see* Respiration, artificial
Vesico-ureteral reflux
Results of systematic voiding cystourethrography in infants with antenatally diagnosed renal pelvis dilation (Ismaili et al). 2002;141:21-4
VCUG timing (Alon) (Letter); (Mahant et al) (Reply). 2002;141:146
Violence
Biological and chemical terrorism (Henretig et al). 2002;141:311-26. Correction 2002;141:743-6
Viral bronchiolitis; *see* Bronchiolitis, viral
Voiding cystourethrography; *see* Diagnostic imaging
Vomiting
The diagnostic evaluation of children with cyclic vomiting: a cost-effectiveness assessment (Olson and Li). 2002;141:724-8 (CLO)

W

Water
The most essential nutrient: defining the adequate intake of water (Manz et al). 2002;141:587-92 (CLO)
Weight gain
Enhanced weight gain in preterm infants receiving lactase-treated feeds: a randomized, double-blind, controlled trial (Erasmus et al). 2002;141:532-7
Wheezing; *see* Respiratory sounds
Williams syndrome
Central precocious puberty in girls with Williams syndrome (Partsch et al). 2002;141:441-4 (CLO)
Wisconsin Newborn Screening Panel
Newborn screening with tandem mass spectrometry: examining its cost-effectiveness in the Wisconsin Newborn Screening Panel (Insinga et al). 2002;141:524-31
World wide web; *see* Computers

X

X chromosome
Cardiolipin deficiency in X-linked cardioskeletal myopathy and neutropenia (Barth syndrome, MIM 302060): a study in cultured skin fibroblasts (Valianpour et al). 2002;141:729-33 (CLO)
Clinical findings leading to the diagnosis of X-linked agammaglobulinemia (Conley and Howard). 2002;141:566-71 (CLO)

Y

Young adults; *see* Adolescence

Z

Zinc
Efficacy of zinc-fortified oral rehydration solution in 6- to 35-month-old children with acute diarrhea (Bahl et al). 2002;141:677-82
